In addition, special education center program pupils placed part-time in noncenter programs to comply with the least restrictive environment provisions of section 612 of part B of the individuals with disabilities education act, 20 USC 1412, may be considered center program pupils for pupil accounting purposes for the time scheduled in either a center program or a noncenter program.

A district's, public school academy's, or intermediate district's membership shall be adjusted as provided under section 25 for pupils who enroll in the district, public school academy, or intermediate district after the pupil membership count day. All pupil counts used in this subsection are as determined by the department and calculated by adding the number of pupils registered for attendance plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by a subsequent department audit. For the purposes of this section and section 6a, for a school of excellence that is a cyber school, as defined in section 551 of the revised school code, MCL 380.551, and is in compliance with section 553a of the revised school code, MCL

380.553a, or for the education achievement system, a pupil's participation in the cyber school's educational program or in an online educational program of the education achievement system or of an achievement school is considered regular daily attendance. The amount of the foundation allowance for a pupil in membership is determined under section 20. In making the calculation of membership, all of the following, as applicable, apply to determining the membership of a district, a public school academy, the education achievement system, or an intermediate district:

(a) Except as otherwise provided in this subsection, and pursuant to subsection (6), a pupil shall be counted in membership in the pupil's educating district or districts. An individual pupil shall not be counted for more than a total of 1.0 full-time equated membership.

(b) If a pupil is educated in a district other than the pupil's district of residence, if the pupil is not being educated as part of a cooperative education program, if the pupil's district of residence does not give the educating district its approval to count the pupil in membership in the educating district, and if the pupil is not covered by an exception specified in subsection (6) to the requirement that the educating district must have the approval of the pupil's district of residence to count the pupil in membership, the pupil shall not be counted in membership in any district.

(c) A special education pupil educated by the intermediate district shall be counted in membership in the intermediate district.

(d) A pupil placed by a court or state agency in an on-grounds program of a juvenile detention facility, a child caring institution, or a mental health institution, or a pupil funded under section 53a, shall be counted in membership in the district or intermediate district approved by the department to operate the program.

(e) A pupil enrolled in the Michigan schools for the deaf and blind shall be counted in membership in the pupil's intermediate district of residence.

(f) A pupil enrolled in a career and technical education program supported by a millage levied over an area larger than a single district or in an area vocational-technical education program established pursuant to section 690 of the revised school code, MCL 380.690, shall be counted only in the pupil's district of residence.

(g) A pupil enrolled in a public school academy shall be counted in membership in the public school academy.

(h) A pupil enrolled in an achievement school shall be counted in membership in the education achievement system.

(i) For a new district or public school academy beginning its operation after December 31, 1994, or for the education achievement system or an achievement school, membership for the first 2 full or partial fiscal years of operation shall be determined as follows:

(i) If operations begin before the pupil membership count day for the fiscal year, membership is the average number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the pupil membership count day for the current school year and on the supplemental count day for the current school year, as determined by the department and calculated by adding the number of pupils registered for attendance on the pupil membership count day plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by a subsequent department audit, plus the final audited count from the supplemental count day for the current school year, and dividing that sum by 2.

(ii) If operations begin after the pupil membership count day for the fiscal year and not later than the supplemental count day for the fiscal year, membership is the final audited count of the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the supplemental count day for the current school year.

(j) If a district is the authorizing body for a public school academy, then, in the first school year in which pupils are counted in membership on the pupil membership count day in the public school academy, the determination of the district's membership shall exclude from the district's pupil count for the immediately preceding supplemental count day any pupils who are counted in the public school academy on that first pupil membership count day who were also counted in the district on the immediately preceding supplemental count day.

(k) In a district, a public school academy, the education achievement system, or an intermediate district operating an extended school year program approved by the superintendent, a pupil enrolled, but not scheduled to be in regular daily attendance on a pupil membership count day, shall be counted.

(l) To be counted in membership, a pupil shall meet the minimum age requirement to be eligible to attend school under section 1147 of the revised school code, MCL 380.1147, or shall be enrolled under subsection (3) of that section, and shall be less than 20 years of age on September 1 of the school year except as follows:

(i) A special education pupil who is enrolled and receiving instruction in a special education program or

service approved by the department, who does not have a high school diploma, and who is less than 26 years of age as of September 1 of the current school year shall be counted in membership.

(ii) A pupil who is determined by the department to meet all of the following may be counted in membership:

(A) Is enrolled in a public school academy or an alternative education high school diploma program, that is primarily focused on educating homeless pupils and that is located in a city with a population of more than 500,000.

(B) Had dropped out of school for more than 1 year and has re-entered school.

(C) Is less than 22 years of age as of September 1 of the current school year.

(m) An individual who has obtained a high school diploma shall not be counted in membership. An individual who has obtained a general educational development (G.E.D.) certificate shall not be counted in membership unless the individual is a pupil with a disability as defined in R 340.1702 of the Michigan administrative code. An individual participating in a job training program funded under former section 107a or a jobs program funded under former section 107b, administered by the Michigan strategic fund, or participating in any successor of either of those 2 programs, shall not be counted in membership.

(n) If a pupil counted in membership in a public school academy or the education achievement system is also educated by a district or intermediate district as part of a cooperative education program, the pupil shall be counted in membership only in the public school academy or the education achievement system unless a written agreement signed by all parties designates the party or parties in which the pupil shall be counted in membership, and the instructional time scheduled for the pupil in the district or intermediate district shall be included in the full-time equated membership determination under subdivision (q). However, for pupils receiving instruction in both a public school academy or the education achievement system and in a district or intermediate district but not as a part of a cooperative education program, the following apply:

(i) If the public school academy or the education achievement system provides instruction for at least 1/2 of the class hours specified in subdivision (q), the public school academy or the education achievement system shall receive as its prorated share of the full-time equated membership for each of those pupils an amount equal to 1 times the product of the hours of instruction the public school academy or the education achievement system provides divided by the number of hours specified in subdivision (q) for full-time equivalency, and the remainder of the full-time membership for each of those pupils shall be allocated to the district or intermediate district providing the remainder of the hours of instruction.

(ii) If the public school academy or the education achievement system provides instruction for less than 1/2 of the class hours specified in subdivision (q), the district or intermediate district providing the remainder of the hours of instruction shall receive as its prorated share of the full-time equated membership for each of those pupils an amount equal to 1 times the product of the hours of instruction the district or intermediate district provides divided by the number of hours specified in subdivision (q) for full-time equivalency, and the remainder of the full-time membership for each of those pupils shall be allocated to the public school academy or the education achievement system.

(o) An individual less than 16 years of age as of September 1 of the current school year who is being educated in an alternative education program shall not be counted in membership if there are also adult education participants being educated in the same program or classroom.

(p) The department shall give a uniform interpretation of full-time and part-time memberships.

(q) The number of class hours used to calculate full-time equated memberships shall be consistent with section 101(3). In determining full-time equated memberships for pupils who are enrolled in a postsecondary institution, a pupil shall not be considered to be less than a full-time equated pupil solely because of the effect of his or her postsecondary enrollment, including necessary travel time, on the number of class hours provided by the district to the pupil.

(r) Beginning in 2012-2013, full-time equated memberships for pupils in kindergarten shall be determined by dividing the number of instructional hours scheduled and provided per year per kindergarten pupil by the same number used for determining full-time equated memberships for pupils in grades 1 to 12. However, to the extent allowable under federal law, for a district or public school academy that provides evidence satisfactory to the department that it used federal title I money in the 2 immediately preceding school fiscal years to fund full-time kindergarten, full-time equated memberships for pupils in kindergarten shall be determined by dividing the number of class hours scheduled and provided per year per kindergarten pupil by a number equal to 1/2 the number used for determining full-time equated memberships for pupils in grades 1 to 12. Not later than December 1, 2012, the department shall seek a clarification from the federal department of education as to whether this is an allowable use of federal title I money. The change in the counting of full-time equated memberships for pupils in kindergarten that takes effect in 2012-2013 is not a mandate. Not later than the fifth Wednesday after the pupil membership count day, each district or public school academy

and the education achievement system shall report to the department and the center the number of instructional hours scheduled per kindergarten pupil for 2012-2013. If the number of instructional hours scheduled per kindergarten pupil is not equal for all kindergarten pupils in the district, the district or public school academy and the education achievement system shall report the number of kindergarten pupils who were scheduled to receive each of the different numbers of instructional hours scheduled.

(s) For a district, a public school academy, or the education achievement system that has pupils enrolled in a grade level that was not offered by the district, the public school academy, or the education achievement system in the immediately preceding school year, the number of pupils enrolled in that grade level to be counted in membership is the average of the number of those pupils enrolled and in regular daily attendance on the pupil membership count day and the supplemental count day of the current school year, as determined by the department. Membership shall be calculated by adding the number of pupils registered for attendance in that grade level on the pupil membership count day plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by subsequent department audit, plus the final audited count from the supplemental count day for the current school year, and dividing that sum by 2.

(t) A pupil enrolled in a cooperative education program may be counted in membership in the pupil's district of residence with the written approval of all parties to the cooperative agreement.

(u) If, as a result of a disciplinary action, a district determines through the district's alternative or disciplinary education program that the best instructional placement for a pupil is in the pupil's home or otherwise apart from the general school population, if that placement is authorized in writing by the district superintendent and district alternative or disciplinary education supervisor, and if the district provides appropriate instruction as described in this subdivision to the pupil at the pupil's home or otherwise apart from the general school population, the district may count the pupil in membership on a pro rata basis, with the proration based on the number of hours of instruction the district actually provides to the pupil divided by the number of hours specified in subdivision (q) for full-time equivalency. For the purposes of this subdivision, a district shall be considered to be providing appropriate instruction if all of the following are met:

(i) The district provides at least 2 nonconsecutive hours of instruction per week to the pupil at the pupil's home or otherwise apart from the general school population under the supervision of a certificated teacher.

(ii) The district provides instructional materials, resources, and supplies, except computers, that are comparable to those otherwise provided in the district's alternative education program.

(iii) Course content is comparable to that in the district's alternative education program.

(iv) Credit earned is awarded to the pupil and placed on the pupil's transcript.

(v) A pupil enrolled in an alternative or disciplinary education program described in section 25 shall be counted in membership in the district, the public school academy, or the education achievement system that is educating the pupil.

(w) If a pupil was enrolled in a public school academy on the pupil membership count day, if the public school academy's contract with its authorizing body is revoked or the public school academy otherwise ceases to operate, and if the pupil enrolls in a district or the education achievement system within 45 days after the pupil membership count day, the department shall adjust the district's or the education achievement system's pupil count for the pupil membership count day to include the pupil in the count.

(x) For a public school academy that has been in operation for at least 2 years and that suspended operations for at least 1 semester and is resuming operations, membership is the sum of the product of .90 times the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the first pupil membership count day or supplemental count day, whichever is first, occurring after operations resume, plus the product of .10 times the final audited count from the most recent pupil membership count day or supplemental count day that occurred before suspending operations, as determined by the superintendent.

(y) If a district's membership for a particular fiscal year, as otherwise calculated under this subsection, would be less than 1,550 pupils and the district has 4.5 or fewer pupils per square mile, as determined by the department, and, beginning in 2007-2008, if the district does not receive funding under section 22d(2), the district's membership shall be considered to be the membership figure calculated under this subdivision. If a district educates and counts in its membership pupils in grades 9 to 12 who reside in a contiguous district that does not operate grades 9 to 12 and if 1 or both of the affected districts request the department to use the determination allowed under this sentence, the department shall include the square mileage of both districts in determining the number of pupils per square mile for each of the districts for the purposes of this subdivision. The membership figure calculated under this subdivision is the greater of the following:

(i) The average of the district's membership for the 3-fiscal-year period ending with that fiscal year, calculated by adding the district's actual membership for each of those 3 fiscal years, as otherwise calculated

under this subsection, and dividing the sum of those 3 membership figures by 3.

(ii) The district's actual membership for that fiscal year as otherwise calculated under this subsection.

(z) If a public school academy that is not in its first or second year of operation closes at the end of a school year and does not reopen for the next school year, the department shall adjust the membership count of the district or the education achievement system in which a former pupil of the public school academy enrolls and is in regular daily attendance for the next school year to ensure that the district or the education achievement system receives the same amount of membership aid for the pupil as if the pupil were counted in the district or the education achievement system on the supplemental count day of the preceding school year.

(aa) Full-time equated memberships for special education pupils who are not enrolled in kindergarten but are enrolled in a classroom program under R 340.1754 of the Michigan administrative code shall be determined by dividing the number of class hours scheduled and provided per year by 450. Full-time equated memberships for special education pupils who are not enrolled in kindergarten but are receiving early childhood special education services under R 340.1755 of the Michigan administrative code shall be determined by dividing the number of hours of service scheduled and provided per year per pupil by 180.

(bb) A pupil of a district that begins its school year after Labor day who is enrolled in an intermediate district program that begins before Labor day shall not be considered to be less than a full-time pupil solely due to instructional time scheduled but not attended by the pupil before Labor day.

(cc) For the first year in which a pupil is counted in membership on the pupil membership count day in a middle college program, the membership is the average of the full-time equated membership on the pupil membership count day and on the supplemental count day for the current school year, as determined by the department. If a pupil was counted by the operating district on the immediately preceding supplemental count day, the pupil shall be excluded from the district's immediately preceding supplemental count for purposes of determining the district's membership.

(dd) A district, a public school academy, or the education achievement system that educates a pupil who attends a United States Olympic education center may count the pupil in membership regardless of whether or not the pupil is a resident of this state.

The district operating the program shall report to the center the number of pupils who were enrolled in the program and were in full attendance for a month not later than the tenth day of the next month. A district shall not report a pupil as being in full attendance for a month unless both of the following are met:

(i) A personalized learning plan is in place on or before the first school day of the month for the first month the pupil participates in the program.

(ii) The pupil meets the district's definition under section 23a of satisfactory monthly progress for that month or, if the pupil does not meet that definition of satisfactory monthly progress for that month, the pupil did meet that definition of satisfactory monthly progress in the immediately preceding month and appropriate interventions are implemented within 10 school days after it is determined that the pupil does not meet that definition of satisfactory monthly progress.

Sec. 11f. (1) From the appropriations under section 11, there is allocated for the purposes of this section an amount not to exceed \$32,000,000.00 for the fiscal year ending September 30, 2008. Payments under this section will cease after September 30, 2008. These allocations are for paying the amounts described in subsection (4) to districts and intermediate districts, other than those receiving a lump sum payment under

subsection (2), that were not plaintiffs in the consolidated cases known as Durant v State of Michigan, Michigan supreme court docket no. 104458-104492 and that, on or before March 2, 1998, submitted to the state treasurer a board resolution waiving any right or interest the district or intermediate district has or may have in any claim or litigation based on or arising out of any claim or potential claim through September 30, 1997 that is or was similar to the claims asserted by the plaintiffs in the consolidated cases known as Durant v State of Michigan. The waiver resolution shall be in form and substance as required under subsection (7). The state treasurer is authorized to accept such a waiver resolution on behalf of this state. The amounts described in this subsection represent offers of settlement and compromise of any claim or claims that were or could have been asserted by these districts and intermediate districts, as described in this subsection.

(2) In addition to any other money appropriated under this act, there was appropriated from the state school aid fund an amount not to exceed \$1,700,000.00 for the fiscal year ending September 30, 1999. This appropriation was for paying the amounts described in this subsection to districts and intermediate districts that were not plaintiffs in the consolidated cases known as Durant v State of Michigan; that, on or before March 2, 1998, submitted to the state treasurer a board resolution waiving any right or interest the district or intermediate district had or may have had in any claim or litigation based on or arising out of any claim or potential claim through September 30, 1997 that is or was similar to the claims asserted by the plaintiffs in the consolidated cases known as Durant v State of Michigan; and for which the total amount listed in section 11h and paid under this section was less than \$75,000.00. For a district or intermediate district qualifying for a payment under this subsection, the entire amount listed for the district or intermediate district in section 11h was paid in a lump sum on November 15, 1998 or on the next business day following that date. The amounts paid under this subsection represent offers of settlement and compromise of any claim or claims that were or could have been asserted by these districts and intermediate districts, as described in this subsection.

(3) This section does not create any obligation or liability of this state to any district or intermediate district that does not submit a waiver resolution described in this section. This section, any other provision of this act, and section 353e of the management and budget act, 1984 PA 431, MCL 18.1353e, are not intended to admit liability or waive any defense that is or would be available to this state or its agencies, employees, or agents in any litigation or future litigation with a district or intermediate district.

(4) The amount paid each fiscal year to each district or intermediate district under subsection (1) shall be 1/20 of the total amount listed in section 11h for each listed district or intermediate district that qualifies for a payment under subsection (1). The amounts listed in section 11h and paid in part under this subsection and in a lump sum under subsection (2) are offers of settlement and compromise to each of these districts or intermediate districts to resolve, in their entirety, any claim or claims that these districts or intermediate districts may have asserted for violations of section 29 of article IX of the state constitution of 1963 through September 30, 1997, which claims are or were similar to the claims asserted by the plaintiffs in the consolidated cases known as Durant v State of Michigan. This section, any other provision of this act, and section 353e of the management and budget act, 1984 PA 431, MCL 18.1353e, shall not be construed to constitute an admission of liability to the districts or intermediate districts listed in section 11h or a waiver of any defense that is or would have been available to the state or its agencies, employees, or agents in any litigation or future litigation with a district or intermediate district.

(5) The entire amount of each payment under subsection (1) each fiscal year shall be paid on November 15 of the applicable fiscal year or on the next business day following that date.

(6) Funds paid to a district or intermediate district under this section shall be used only for textbooks, electronic instructional material, software, technology, infrastructure or infrastructure improvements, school buses, school security, training for technology, an early intervening program described in subsection (8), or to pay debt service on voter-approved bonds issued by the district or intermediate district before the effective date of this section. For intermediate districts only, funds paid under this section may also be used for other nonrecurring instructional expenditures including, but not limited to, nonrecurring instructional expenditures for vocational education, or for debt service for acquisition of technology for academic support services. Funds received by an intermediate district under this section may be used for projects conducted for the benefit of its constituent districts at the discretion of the intermediate board. (7) The resolution to be adopted and submitted by a district or intermediate district under this section and section 11g shall read as follows:

"Whereas, the board of _____ (name of district or intermediate district) desires to settle and compromise, in their entirety, any claim or claims that the district (or intermediate district) has or had for violations of section 29 of article IX of the state constitution of 1963, which claim or claims are or were

similar to the claims asserted by the plaintiffs in the consolidated cases known as Durant v State of Michigan, Michigan supreme court docket no. 104458-104492.

2. The board of _____ (name of district or intermediate district) directs its secretary to submit a certified copy of this resolution to the state treasurer no later than 5 p.m. eastern standard time on March 2, 1998, and agrees that it will not take any action to amend or rescind this resolution.

3. The board of _____ (name of district or intermediate district) expressly agrees and understands that, if it takes any action to amend or rescind this resolution, the state, its agencies, employees, and agents shall have available to them any privilege, immunity, and/or defense that would otherwise have been available had the claims or potential claims been actually litigated in any forum.

4. This resolution is contingent on continued payments by the state each fiscal year as determined under sections 11f and 11g of the state school aid act of 1979, 1979 PA 94, MCL 388.1611f and 388.1611g. However, this resolution shall be an irrevocable waiver of any claim to amounts actually received by the school district or intermediate school district under sections 11f and 11g of the state school aid act of 1979."

(a) Shall monitor individual pupil learning for pupils in grades K to 3 and provide specific support or learning strategies to pupils in grades K to 3 as early as possible in order to reduce the need for special education placement. The program shall include literacy and numeracy supports, sensory motor skill development, behavior supports, instructional consultation for teachers, and the development of a parent/school learning plan. Specific support or learning strategies may include support in or out of the general classroom in areas including reading, writing, math, visual memory, motor skill development, behavior, or language development. These would be provided based on an understanding of the individual child's learning needs.

(b) Shall provide early intervening strategies for pupils in grades K to 3 using school-wide systems of academic and behavioral supports and shall be scientifically research-based. The strategies to be provided shall include at least pupil performance indicators based upon response to intervention, instructional consultation for teachers, and ongoing progress monitoring. A school-wide system of academic and behavioral support should be based on a support team available to the classroom teachers. The members of this team could include the principal, special education staff, reading teachers, and other appropriate personnel who would be available to systematically study the needs of the individual child and work with the teacher to match instruction to the needs of the individual child.

History: Add. 1997, Act 142, Imd. Eff. Nov. 19, 1997.

Compiler's note: In the above table, the entry for "Bridgeport-Saulding Community Schools" should evidently read "Bridgeport-Spaulling Community Schools."

388.1611i Borrowing money and issuing bonds.

Sec. 11i. (1) In addition to any other authority granted under law, an eligible district or intermediate district may borrow from the Michigan municipal bond authority created under the shared credit rating act, 1985 PA 227, MCL 141.1051 to 141.1077, an amount equal to 1/2 of the amount listed for the district or intermediate

district in section 11h, in anticipation of the receipt of the payments appropriated under section 11g, and may authorize by resolution of its governing body and issue its bonds to evidence its obligations to the Michigan municipal bond authority on the terms and with those provisions as are provided by resolution of the board of the district or intermediate district and as are acceptable to the Michigan municipal bond authority if the bonds are accompanied by an opinion of bond counsel acceptable to the Michigan municipal bond authority to the effect that the interest on the bonds is excluded from gross income for federal income tax purposes. For the purposes of this section, an eligible district or intermediate district is a district or intermediate district, other than a district or intermediate district that receives a lump sum payment under section 11f(2), that qualifies to receive funds under sections 11f and 11g and that notifies the department of treasury not later than 5 p.m. eastern daylight time on June 30, 1998, in the form and manner prescribed by the department of treasury, that the district or intermediate district will borrow money and issue bonds under this section or is a district, other than a district that receives a lump sum payment under section 11f(2), that qualifies to receive funds under sections 11f and 11g, that has a membership of less than 2,000 full-time equated pupils, that has not submitted to the department of treasury a letter stating its intent not to borrow from the Michigan municipal bond authority, and that notified the department of treasury not later than 5 p.m. eastern daylight time on July 14, 1998, in the form and manner prescribed by the department of treasury, that the district will borrow money and issue bonds under this section. A district or intermediate district may pledge and assign to the Michigan municipal bond authority, as security for the bonds, all of the payments appropriated to it under section 11g but may not otherwise pledge or assign those payments. Bonds issued under this section are not subject to the municipal finance act, 1943 PA 202, MCL 131.1 to 139.3.

(2) Proceeds of bonds issued under this section shall be made available to districts and intermediate districts on or after November 15, 1998. Each district and intermediate district shall use proceeds of bonds issued by it under this section only for a purpose for which bonds may be issued under section 1351a of the revised school code, MCL 380.1351a.

(3) Bonds issued under this section do not constitute a general obligation or debt of a district or intermediate district within the meaning of any constitutional or statutory debt limitation.

(4) This section shall be construed as cumulative authority for the exercise of the powers granted in this section and shall not be construed to repeal any existing law. The purpose of this section is to create full and complete additional and alternate methods for the exercise of existing powers, and the powers conferred by this section are not affected or limited by any other statute or by any charter or incorporating document.

(5) A pledge made by a district or intermediate district under this section is valid and binding from the time the pledge is made. The revenue or other money pledged under this section and thereafter received by a district or intermediate district is immediately subject to the lien of the pledge without physical delivery of the revenue or money or any further act. The lien of such a pledge is valid and binding against a party having a claim of any kind in tort, contract, or otherwise against the district or intermediate district, irrespective of whether that party has notice of the pledge. The resolution or any other instrument by which a pledge is created is not required to be filed or recorded in order to establish and perfect a lien or security interest in the property pledged.

(6) Bonds issued under this section are not in any way a debt or liability of this state; do not create or constitute any indebtedness, liability, or obligation of this state; are not and do not constitute a pledge of the faith and credit of this state; and shall contain on their face a statement to that effect.

(1) If a district or intermediate district fails to receive its proper apportionment, the department, upon satisfactory proof that the district or intermediate district was entitled justly, shall apportion the deficiency in the next apportionment. Subject to subsections (2) and (3), if a district or intermediate district has received more than its proper apportionment, the department, upon satisfactory proof, shall deduct the excess in the next apportionment. Notwithstanding any other provision in this article, state aid overpayments to a district, other than overpayments in payments for special education or special education transportation, may be recovered from any payment made under this article other than a special education or special education transportation payment, from the proceeds of a loan to the district under the emergency municipal loan act, 1980 PA 243, MCL 141.931 to 141.942, or from the proceeds of millage levied or pledged under section 1211 of the revised school code, MCL 380.1211. State aid overpayments made in special education or special education transportation payments may be recovered from subsequent special education or special education transportation payments, from the proceeds of a loan to the district under the emergency municipal loan act, 1980 PA 243, MCL 141.931 to 141.942, or from the proceeds of millage levied or pledged under section 1211 of the revised school code, MCL 380.1211.

(2) If the result of an audit conducted by or for the department affects the current fiscal year membership, affected payments shall be adjusted in the current fiscal year. A deduction due to an adjustment made as a result of an audit conducted by or for the department, or as a result of information obtained by the department from the district, an intermediate district, the department of treasury, or the office of auditor general, shall be deducted from the district's apportionments when the adjustment is finalized. At the request of the district and upon the district presenting evidence satisfactory to the department of the hardship, the department may grant up to an additional 4 years for the adjustment and may advance payments to the district otherwise authorized under this act if the district would otherwise experience a significant hardship in satisfying its financial obligations.

(3) If, because of the receipt of new or updated data, the department determines during a fiscal year that the amount paid to a district or intermediate district under this article for a prior fiscal year was incorrect under the law in effect for that year, the department may make the appropriate deduction or payment in the district's or intermediate district's allocation for the fiscal year in which the determination is made. The deduction or payment shall be calculated according to the law in effect in the fiscal year in which the improper amount was paid. If the district does not receive an allocation for the fiscal year or if the allocation is not sufficient to pay the amount of any deduction, the amount of any deduction otherwise applicable shall be satisfied from the proceeds of a loan to the district under the emergency municipal loan act, 1980 PA 243, MCL 141.931 to 141.942, or from the proceeds of millage levied or pledged under section 1211 of the revised school code, MCL 380.1211, as determined by the department.

(4) Expenditures made by the department under this article that are caused by the write-off of prior year accruals may be funded by revenue from the write-off of prior year accruals.

(5) In addition to funds appropriated in section 11 for all programs and services, there is appropriated for 2012-2013 for obligations in excess of applicable appropriations an amount equal to the collection of overpayments, but not to exceed amounts available from overpayments.

388.1617a Withholding payment district or intermediate district entitled to receive under act; extent; plan for financing outstanding obligation defaulted upon by district or intermediate district; use of amounts withheld; agreement assigning or pledging payment; effect of appointment of emergency manager; indebtedness of state not created; "trustee of a pooled arrangement" defined; approval or disapproval within 10 days after receipt.

Sec. 17a. (1) The department may withhold all or part of any payment that a district or intermediate district is entitled to receive under this act to the extent the withholdings are a component part of a plan, developed and implemented pursuant to the revised municipal finance act, 2001 PA 34, MCL 141.2101 to 141.2821, or other statutory authority, for financing an outstanding obligation upon which the district or intermediate district defaulted. Amounts withheld shall be used to pay, on behalf of the district or intermediate district, unpaid amounts or subsequently due amounts, or both, of principal and interest on the outstanding obligation upon which the district or intermediate district defaulted.

(2) The state treasurer may withhold all or part of any payment that a district or intermediate district is entitled to receive under this act to the extent authorized or required under section 15 of the school bond qualification, approval, and loan act, 2005 PA 92, MCL 388.1935.

(3) Under an agreement entered into by a district or intermediate district assigning all or a portion of the payment that it is eligible to receive under this act to the Michigan finance authority or to the trustee of a pooled arrangement or pledging the amount for payment of an obligation it incurred with the Michigan finance authority or with the trustee of a pooled arrangement, the state treasurer shall transmit to the Michigan finance authority or a trustee designated by the Michigan finance authority or to the trustee of a pooled arrangement the amount of the payment that is assigned or pledged under the agreement.

(4) If a district or intermediate district for which an emergency manager has been appointed pursuant to the local government and school district fiscal accountability act, 2011 PA 4, MCL 141.1501 to 141.1531, or that has an approved deficit elimination plan under section 102, enters into or has entered into an agreement described in subsection (3) pursuant to section 1225(2) of the revised school code, MCL 380.1225, whether the obligation was issued before or after the effective date of this subsection, the portion of state school aid paid or to be paid on behalf of the district or intermediate district directly to the Michigan finance authority, or to a trustee designated by the Michigan finance authority, for the sole purpose of paying the principal of and interest on the obligation is subject to a lien and trust that is a statutory lien and trust, paramount and superior to all other liens and interests of any kind, for the sole purpose of paying the principal of and interest on the obligation. The statutory lien and trust applies to the state school aid received or to be received by the Michigan finance authority, or trustee designated by the Michigan finance authority, on behalf of the district or intermediate district, immediately upon the later of the effective date of this subsection or the time when the state school aid is allocated to the district or intermediate district, but is subject to any subsequent reduction of the state school aid allocation by operation of law or executive order. The lien and trust imposed

by this section with respect to state school aid has a priority as established in the agreement, except that the agreement shall not impair any existing lien and trust previously created pursuant to this section, including any lien and trust applicable to a multi-year repayment agreement under section 1225 of the revised school code, 1976 PA 451, MCL 380.1225. Except as otherwise provided in this subsection, the lien and trust created under this subsection for the benefit of holders of the obligation issued pursuant to this section is valid and binding against a party having a claim of any kind in tort, contract, or otherwise against the district or intermediate district that has issued the obligation secured by a pledge of state school aid pursuant to this section, regardless of whether that party has notice of the pledge. A pledge made pursuant to this section for the benefit of the holders of obligations or others is perfected without delivery, recording, or notice. The state school aid paid or to be paid on behalf of a district or intermediate district to the Michigan finance authority, or trustee designated by the Michigan finance authority, shall be held in trust for the sole benefit of the holders of the obligation issued pursuant to this section or section 1225 and is exempt from being levied upon, taken, sequestered, or applied toward paying the debts or liabilities of the district or intermediate district other than for payment of the obligation to which the lien applies. However, nothing in this subsection alters the ability of the state treasurer to withhold state school aid from a district or intermediate district as provided by law.

(5) Notwithstanding the payment dates prescribed by this act for distributions under this act, the state treasurer may advance all or part of a payment that is dedicated for distribution or for which the appropriation authorizing the payment has been made if and to the extent, under the terms of an agreement entered into by a district or intermediate district and the Michigan finance authority, the payment that the district or intermediate district is eligible to receive has been assigned to or pledged for payment of an obligation it incurred with the Michigan finance authority.

(6) This section does not require the state to make an appropriation to any school district or intermediate school district and shall not be construed as creating an indebtedness of the state, and any agreement made pursuant to this section shall contain a statement to that effect.

(7) As used in this section, "trustee of a pooled arrangement" means the trustee of a trust approved by the state treasurer and, subject to the conditions and requirements of that approval, established for the purpose of offering for sale, as part of a pooled arrangement, certificates representing undivided interests in notes issued by districts or intermediate districts under section 1225 of the revised school code, 1976 PA 451, MCL 380.1225.

(8) If a trustee applies to the state treasurer for approval of a trust for the purposes of this section, the state treasurer shall approve or disapprove the trust within 10 days after receipt of the application.

388.1617b Amounts to be distributed in installments to districts; electronic files; payments; warrant; adjustments; grant payments; installment schedule; advance release of funds.

Sec. 17b. (1) Not later than October 20, November 20, December 20, January 20, February 20, March 20, April 20, May 20, June 20, July 20, and August 20, the department shall prepare electronic files of the amount to be distributed under this act in the installment to the districts and intermediate districts and deliver the electronic files to the state treasurer, and the state treasurer shall pay the installments on each of those dates or, if the date is not a business day, on the next business day following that date. Except as otherwise provided in this act, the portion of the district's or intermediate district's state fiscal year entitlement to be included in each installment shall be 1/11. A district or intermediate district shall accrue the payments received in July and August to the school fiscal year ending the immediately preceding June 30.

(2) The state treasurer shall make payment under this section by drawing a warrant in favor of the treasurer of each district or intermediate district for the amount payable to the district or intermediate district according to the electronic files and delivering the warrant to the treasurer of each district or intermediate district, or if the state treasurer receives a written request by the treasurer of the district or intermediate district specifying an account, by electronic funds transfer to that account of the amount payable to the district or intermediate district according to the electronic files. The department may make adjustments in payments made under this

section through additional payments when changes in law or errors in computation cause the regularly scheduled payment to be less than the amount to which the district or intermediate district is entitled pursuant to this act.

(3) Except as otherwise provided in this act, grant payments to districts and intermediate districts under this act shall be paid according to the installment schedule under subsection (1).

(4) Upon the written request of a district or intermediate district and the submission of proof satisfactory to the department of a need of a temporary and nonrecurring nature, the superintendent, with the written concurrence of the state treasurer and the state budget director, may authorize an advance release of funds due a district or intermediate district under this act. An advance authorized under this subsection shall not cause funds to be paid to a district or intermediate district more than 30 days earlier than the established payment date for those funds.

388.1620 Foundation allowance; calculations allocations; adjustments; definitions.

Sec. 20. (1) For 2011-2012, and for 2012-2013, the basic foundation allowance is \$8,019.00.

(2) The amount of each district's foundation allowance shall be calculated as provided in this section, using a basic foundation allowance in the amount specified in subsection (1).

(3) Except as otherwise provided in this section, the amount of a district's foundation allowance shall be calculated as follows, using in all calculations the total amount of the district's foundation allowance as calculated before any proration:

(a) For a district that had a foundation allowance for the immediately preceding state fiscal year that was at least equal to the sum of \$7,108.00 plus the total dollar amount of all adjustments made from 2006-2007 to the immediately preceding state fiscal year in the lowest foundation allowance among all districts, but less than the basic foundation allowance for the immediately preceding state fiscal year, the district shall receive a foundation allowance in an amount equal to the sum of the district's foundation allowance for the immediately preceding state fiscal year plus the difference between twice the dollar amount of the adjustment from the immediately preceding state fiscal year to the current state fiscal year made in the basic foundation allowance and [(the dollar amount of the adjustment from the immediately preceding state fiscal year to the current state fiscal year made in the basic foundation allowance minus \$20.00) times (the difference between the district's foundation allowance for the immediately preceding state fiscal year and the sum of \$7,108.00 plus the total dollar amount of all adjustments made from 2006-2007 to the immediately preceding state fiscal year in the lowest foundation allowance among all districts) divided by the difference between the basic foundation allowance for the current state fiscal year and the sum of \$7,108.00 plus the total dollar amount of all adjustments made from 2006-2007 to the immediately preceding state fiscal year in the lowest foundation allowance among all districts]. For 2011-2012, for a district that had a foundation allowance for the immediately preceding state fiscal year that was at least equal to the sum of \$7,108.00 plus the total dollar amount of all adjustments made from 2006-2007 to the immediately preceding state fiscal year in the lowest foundation allowance among all districts, but less than the basic foundation allowance for the immediately preceding state fiscal year, the district shall receive a foundation allowance in an amount equal to the district's foundation allowance for 2010-2011, minus \$470.00. Except as otherwise provided in subdivision (h), for

2012-2013, for a district that had a foundation allowance for the immediately preceding state fiscal year that was at least equal to the sum of \$7,108.00 plus the total dollar amount of all adjustments made from 2006-2007 to the immediately preceding state fiscal year in the lowest foundation allowance among all districts, but less than the basic foundation allowance for the immediately preceding state fiscal year, the district shall receive a foundation allowance in an amount equal to the district's foundation allowance for the immediately preceding state fiscal year. However, the foundation allowance for a district that had less than the basic foundation allowance for the immediately preceding state fiscal year shall not exceed the basic foundation allowance for the current state fiscal year.

(b) Except as otherwise provided in this subsection, for a district that in the immediately preceding state fiscal year had a foundation allowance in an amount at least equal to the amount of the basic foundation allowance for the immediately preceding state fiscal year, the district shall receive a foundation allowance for 2011-2012 in an amount equal to the district's foundation allowance for 2010-2011, minus \$470.00. For 2012-2013, except as otherwise provided in this subsection, for a district that in the immediately preceding state fiscal year had a foundation allowance in an amount at least equal to the amount of the basic foundation allowance for the immediately preceding state fiscal year, the district shall receive a foundation allowance for 2012-2013 in an amount equal to the district's foundation allowance for the immediately preceding state fiscal year.

(c) Except as otherwise provided in subdivision (d), for a district that in the 1994-95 state fiscal year had a foundation allowance greater than \$6,500.00, the district's foundation allowance is an amount equal to the sum of the district's foundation allowance for the immediately preceding state fiscal year plus the lesser of the increase in the basic foundation allowance for the current state fiscal year, as compared to the immediately preceding state fiscal year, or the product of the district's foundation allowance for the immediately preceding state fiscal year times the percentage increase in the United States consumer price index in the calendar year ending in the immediately preceding fiscal year as reported by the May revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b. Except as otherwise provided in subdivision (d), for 2011-2012, for a district that in the 1994-1995 state fiscal year had a foundation allowance greater than \$6,500.00, the district's foundation allowance is an amount equal to the district's foundation allowance for the 2010-2011 fiscal year minus \$470.00. For 2012-2013, except as otherwise provided in subdivision (d), for a district that in the 1994-1995 state fiscal year had a foundation allowance greater than \$6,500.00, the district's foundation allowance is an amount equal to the district's foundation allowance for the immediately preceding state fiscal year.

(d) For a district that in the 1994-95 state fiscal year had a foundation allowance greater than \$6,500.00 and that had a foundation allowance for the 2009-2010 state fiscal year, as otherwise calculated under this section, that was less than the basic foundation allowance, the district's foundation allowance for 2011-2012 and each succeeding fiscal year shall be considered to be an amount equal to the basic foundation allowance.

(e) For a district that has a foundation allowance that is not a whole dollar amount, the district's foundation allowance shall be rounded up to the nearest whole dollar.

(f) For a district that received a payment under section 22c as that section was in effect for 2001-2002, the district's 2001-2002 foundation allowance shall be considered to have been an amount equal to the sum of the district's actual 2001-2002 foundation allowance as otherwise calculated under this section plus the per pupil amount of the district's equity payment for 2001-2002 under section 22c as that section was in effect for 2001-2002.

(g) For a district that received a payment under section 22c as that section was in effect for 2006-2007, the district's 2006-2007 foundation allowance shall be considered to have been an amount equal to the sum of the district's actual 2006-2007 foundation allowance as otherwise calculated under this section plus the per pupil amount of the district's equity payment for 2006-2007 under section 22c as that section was in effect for 2006-2007.

(h) For 2012-2013, for a district that had a foundation allowance for the 2011-2012 state fiscal year of less than \$6,966.00, the district's foundation allowance is an amount equal to \$6,966.00.

(4) Except as otherwise provided in this subsection, the state portion of a district's foundation allowance is an amount equal to the district's foundation allowance or the basic foundation allowance for the current state fiscal year, whichever is less, minus the difference between the sum of the product of the taxable value per membership pupil of all property in the district that is nonexempt property times the district's certified mills and, for a district with certified mills exceeding 12, the product of the taxable value per membership pupil of property in the district that is commercial personal property times the certified mills minus 12 mills and the quotient of the ad valorem property tax revenue of the district captured under tax increment financing acts divided by the district's membership excluding special education pupils. For a district described in subsection (3)(c), the state portion of the district's foundation allowance is an amount equal to \$6,962.00 plus the

difference between the district's foundation allowance for the current state fiscal year and the district's foundation allowance for 1998-99, minus the difference between the sum of the product of the taxable value per membership pupil of all property in the district that is nonexempt property times the district's certified mills and, for a district with certified mills exceeding 12, the product of the taxable value per membership pupil of property in the district that is commercial personal property times the certified mills minus 12 mills and the quotient of the ad valorem property tax revenue of the district captured under tax increment financing acts divided by the district's membership excluding special education pupils. For a district that has a millage reduction required under section 31 of article IX of the state constitution of 1963, the state portion of the district's foundation allowance shall be calculated as if that reduction did not occur.

(5) The allocation calculated under this section for a pupil shall be based on the foundation allowance of the pupil's district of residence. For a pupil enrolled pursuant to section 105 or 105c in a district other than the pupil's district of residence, the allocation calculated under this section shall be based on the lesser of the foundation allowance of the pupil's district of residence or the foundation allowance of the educating district. For a pupil in membership in a K-5, K-6, or K-8 district who is enrolled in another district in a grade not offered by the pupil's district of residence, the allocation calculated under this section shall be based on the foundation allowance of the educating district if the educating district's foundation allowance is greater than the foundation allowance of the pupil's district of residence.

(6) Except as otherwise provided in this subsection, for pupils in membership, other than special education pupils, in a public school academy, the allocation calculated under this section is an amount per membership pupil other than special education pupils in the public school academy equal to the foundation allowance of the district in which the public school academy is located or the state maximum public school academy allocation, whichever is less. However, a public school academy that had an allocation under this subsection before 2009-2010 that was equal to the sum of the local school operating revenue per membership pupil other than special education pupils for the district in which the public school academy is located and the state portion of that district's foundation allowance shall not have that allocation reduced as a result of the 2010 amendment to this subsection. Notwithstanding section 101, for a public school academy that begins operations after the pupil membership count day, the amount per membership pupil calculated under this subsection shall be adjusted by multiplying that amount per membership pupil by the number of hours of pupil instruction provided by the public school academy after it begins operations, as determined by the department, divided by the minimum number of hours of pupil instruction required under section 101(3). The result of this calculation shall not exceed the amount per membership pupil otherwise calculated under this subsection.

(7) Except as otherwise provided in this subsection, for pupils attending an achievement school and in membership in the education achievement system, other than special education pupils, the allocation calculated under this section is an amount per membership pupil other than special education pupils equal to the foundation allowance of the district in which the achievement school is located, not to exceed the basic foundation allowance. Notwithstanding section 101, for an achievement school that begins operation after the pupil membership count day, the amount per membership pupil calculated under this subsection shall be adjusted by multiplying that amount per membership pupil by the number of hours of pupil instruction provided by the achievement school after it begins operations, as determined by the department, divided by the minimum number of hours of pupil instruction required under section 101(3). The result of this calculation shall not exceed the amount per membership pupil otherwise calculated under this subsection. For the purposes of this subsection, if a public school is transferred from a district to the state school reform/redesign district or the achievement authority under section 1280c of the revised school code, that public school is considered to be an achievement school within the education achievement system and not a school that is part of a district, and a pupil attending that public school is considered to be in membership in the education achievement system and not in membership in the district that operated the school before the transfer.

(8) Subject to subsection (4), for a district that is formed or reconfigured after June 1, 2002 by consolidation of 2 or more districts or by annexation, the resulting district's foundation allowance under this section beginning after the effective date of the consolidation or annexation shall be the average of the foundation allowances of each of the original or affected districts, calculated as provided in this section, weighted as to the percentage of pupils in total membership in the resulting district who reside in the geographic area of each of the original or affected districts.

(9) Each fraction used in making calculations under this section shall be rounded to the fourth decimal place and the dollar amount of an increase in the basic foundation allowance shall be rounded to the nearest whole dollar.

(10) State payments related to payment of the foundation allowance for a special education pupil are not calculated under this section but are instead calculated under section 51a.

(11) To assist the legislature in determining the basic foundation allowance for the subsequent state fiscal year, each revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b, shall calculate a pupil membership factor, a revenue adjustment factor, and an index as follows:

(a) The pupil membership factor shall be computed by dividing the estimated membership in the school year ending in the current state fiscal year, excluding intermediate district membership, by the estimated membership for the school year ending in the subsequent state fiscal year, excluding intermediate district membership. If a consensus membership factor is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(b) The revenue adjustment factor shall be computed by dividing the sum of the estimated total state school aid fund revenue for the subsequent state fiscal year plus the estimated total state school aid fund revenue for the current state fiscal year, adjusted for any change in the rate or base of a tax the proceeds of which are deposited in that fund and excluding money transferred into that fund from the countercyclical budget and economic stabilization fund under the management and budget act, 1984 PA 431, MCL 18.1101 to 18.1594, by the sum of the estimated total school aid fund revenue for the current state fiscal year plus the estimated total state school aid fund revenue for the immediately preceding state fiscal year, adjusted for any change in the rate or base of a tax the proceeds of which are deposited in that fund. If a consensus revenue factor is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(c) The index shall be calculated by multiplying the pupil membership factor by the revenue adjustment factor. However, for 2011-2012, the index shall be 0.93575 and for 2012-2013, the index shall be 1.00. If a consensus index is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(12) For a district in which 7.75 mills levied in 1992 for school operating purposes in the 1992-93 school year were not renewed in 1993 for school operating purposes in the 1993-94 school year, the district's combined state and local revenue per membership pupil shall be recalculated as if that millage reduction did not occur and the district's foundation allowance shall be calculated as if its 1994-95 foundation allowance had been calculated using that recalculated 1993-94 combined state and local revenue per membership pupil as a base. A district is not entitled to any retroactive payments for fiscal years before 2000-2001 due to this subsection. A district receiving an adjustment under this subsection shall not receive as a result of this adjustment an amount that exceeds 50% of the amount the district received as a result of this adjustment for 2010-2011. This adjustment shall not be made after 2011-2012.

(13) For a district in which an industrial facilities exemption certificate that abated taxes on property with a state equalized valuation greater than the total state equalized valuation of the district at the time the certificate was issued or \$700,000,000.00, whichever is greater, was issued under 1974 PA 198, MCL 207.551 to 207.572, before the calculation of the district's 1994-95 foundation allowance, the district's foundation allowance for 2002-2003 is an amount equal to the sum of the district's foundation allowance for 2002-2003, as otherwise calculated under this section, plus \$250.00. A district receiving an adjustment under this subsection shall not receive as a result of this adjustment an amount that exceeds 50% of the amount the district received as a result of this adjustment for 2010-2011. This adjustment shall not be made after 2011-2012.

(14) For a district that received a grant under former section 32e for 2001-2002, the district's foundation allowance for 2002-2003 and each succeeding fiscal year shall be adjusted to be an amount equal to the sum of the district's foundation allowance, as otherwise calculated under this section, plus the quotient of 100% of the amount of the grant award to the district for 2001-2002 under former section 32e divided by the number of pupils in the district's membership for 2001-2002 who were residents of and enrolled in the district. Except as otherwise provided in this subsection, a district qualifying for a foundation allowance adjustment under this subsection shall use the funds resulting from this adjustment for at least 1 of grades K to 3 for purposes allowable under former section 32e as in effect for 2001-2002. For an individual school or schools operated by a district qualifying for a foundation allowance under this subsection that have been determined by the department to meet the adequate yearly progress standards of the federal no child left behind act of 2001, Public Law 107-110, in both mathematics and English language arts at all applicable grade levels for all applicable subgroups, the district may submit to the department an application for flexibility in using the funds resulting from this adjustment that are attributable to the pupils in the school or schools. The application

shall identify the affected school or schools and the affected funds and shall contain a plan for using the funds for specific purposes identified by the district that are designed to reduce class size, but that may be different from the purposes otherwise allowable under this subsection. The department shall approve the application if the department determines that the purposes identified in the plan are reasonably designed to reduce class size. If the department does not act to approve or disapprove an application within 30 days after it is submitted to the department, the application is considered to be approved. If an application for flexibility in using the funds is approved, the district may use the funds identified in the application for any purpose identified in the plan. A district receiving an adjustment under this subsection shall not receive as a result of this adjustment an amount that exceeds 68.5% of the amount the district received as a result of this adjustment for 2010-2011.

(15) For a district that levied 1.9 mills in 1993 to finance an operating deficit, the district's foundation allowance shall be calculated as if those mills were included as operating mills in the calculation of the district's 1994-1995 foundation allowance. A district is not entitled to any retroactive payments for fiscal years before 2006-2007 due to this subsection. A district receiving an adjustment under this subsection shall not receive more than \$800,000.00 for a fiscal year as a result of this adjustment. A district receiving an adjustment under this subsection shall not receive as a result of this adjustment an amount that exceeds 50% of the amount the district received as a result of this adjustment for 2010-2011. This adjustment shall not be made after 2011-2012.

(16) For a district that levied 2.23 mills in 1993 to finance an operating deficit, the district's foundation allowance shall be calculated as if those mills were included as operating mills in the calculation of the district's 1994-1995 foundation allowance. A district is not entitled to any retroactive payments for fiscal years before 2006-2007 due to this subsection. A district receiving an adjustment under this subsection shall not receive more than \$500,000.00 for a fiscal year as a result of this adjustment. A district receiving an adjustment under this subsection shall not receive as a result of this adjustment an amount that exceeds 50% of the amount the district received as a result of this adjustment for 2010-2011. This adjustment shall not be made after 2011-2012.

(17) Payments to districts, public school academies, or the education achievement system shall not be made under this section. Rather, the calculations under this section shall be used to determine the amount of state payments under section 22b.

(18) If an amendment to section 2 of article VIII of the state constitution of 1963 allowing state aid to some or all nonpublic schools is approved by the voters of this state, each foundation allowance or per pupil payment calculation under this section may be reduced.

388.1622a Allocation for 2011-2012 and 2012-2013; payments to districts and qualifying public school academies; definitions.

Sec. 22a. (1) From the appropriation in section 11, there is allocated an amount not to exceed \$5,776,000,000.00 for 2011-2012 and there is allocated an amount not to exceed \$5,712,000,000.00 for 2012-2013 for payments to districts and qualifying public school academies to guarantee each district and qualifying public school academy an amount equal to its 1994-95 total state and local per pupil revenue for school operating purposes under section 11 of article IX of the state constitution of 1963. Pursuant to section 11 of article IX of the state constitution of 1963, this guarantee does not apply to a district in a year in which the district levies a millage rate for school district operating purposes less than it levied in 1994. However, subsection (2) applies to calculating the payments under this section. Funds allocated under this section that are not expended in the state fiscal year for which they were allocated, as determined by the department, may be used to supplement the allocations under sections 22b and 51c in order to fully fund those calculated allocations for the same fiscal year.

(2) To ensure that a district receives an amount equal to the district's 1994-95 total state and local per pupil revenue for school operating purposes, there is allocated to each district a state portion of the district's 1994-95 foundation allowance in an amount calculated as follows:

(a) Except as otherwise provided in this subsection, the state portion of a district's 1994-95 foundation allowance is an amount equal to the district's 1994-95 foundation allowance or \$6,500.00, whichever is less, minus the difference between the sum of the product of the taxable value per membership pupil of all property in the district that is nonexempt property times the district's certified mills and, for a district with certified mills exceeding 12, the product of the taxable value per membership pupil of property in the district that is commercial personal property times the certified mills minus 12 mills and the quotient of the ad valorem property tax revenue of the district captured under tax increment financing acts divided by the district's membership. For a district that has a millage reduction required under section 31 of article IX of the state constitution of 1963, the state portion of the district's foundation allowance shall be calculated as if that reduction did not occur.

(b) For a district that had a 1994-95 foundation allowance greater than \$6,500.00, the state payment under this subsection shall be the sum of the amount calculated under subdivision (a) plus the amount calculated under this subdivision. The amount calculated under this subdivision shall be equal to the difference between the district's 1994-95 foundation allowance minus \$6,500.00 and the current year hold harmless school operating taxes per pupil. If the result of the calculation under subdivision (a) is negative, the negative amount shall be an offset against any state payment calculated under this subdivision. If the result of a calculation under this subdivision is negative, there shall not be a state payment or a deduction under this subdivision. The taxable values per membership pupil used in the calculations under this subdivision are as adjusted by ad valorem property tax revenue captured under tax increment financing acts divided by the district's membership.

(3) Beginning in 2003-2004, for pupils in membership in a qualifying public school academy, there is allocated under this section to the authorizing body that is the fiscal agent for the qualifying public school academy for forwarding to the qualifying public school academy an amount equal to the 1994-95 per pupil payment to the qualifying public school academy under section 20.

(4) A district or qualifying public school academy may use funds allocated under this section in conjunction with any federal funds for which the district or qualifying public school academy otherwise would be eligible.

(5) For a district that is formed or reconfigured after June 1, 2000 by consolidation of 2 or more districts or by annexation, the resulting district's 1994-95 foundation allowance under this section beginning after the effective date of the consolidation or annexation shall be the average of the 1994-95 foundation allowances of

each of the original or affected districts, calculated as provided in this section, weighted as to the percentage of pupils in total membership in the resulting district in the state fiscal year in which the consolidation takes place who reside in the geographic area of each of the original districts. If an affected district's 1994-95 foundation allowance is less than the 1994-95 basic foundation allowance, the amount of that district's 1994-95 foundation allowance shall be considered for the purpose of calculations under this subsection to be equal to the amount of the 1994-95 basic foundation allowance.

(6) Subject to conditions set forth in this subsection, from the allocation in subsection (1), there is allocated for 2011-2012 only an amount not to exceed \$6,000,000.00 for payments to districts that meet the eligibility requirements under this subsection, for the reduction in school operating revenues resulting from a settlement or other disposition of appeals described in subdivision (a). A payment may only be made under this subsection if a settlement agreement is signed by all applicable parties. Payments made under this subsection shall be in accordance with the settlement agreement. All of the following apply to payments under this subsection:

(a) To be eligible for a payment under this subsection, a district shall be determined by the department and the department of treasury to meet all of the following:

(i) The district does not receive any state portion of its foundation allowance, as calculated under section 20(4).

(ii) Before January 1, 2011, the owner of a natural-gas-powered power plant located in a renaissance zone within the district's geographic boundaries for 2009 and 2010 appealed to the Michigan tax tribunal an order of the state tax commission for tax years 2009 and 2010 pursuant to section 154 of the general property tax act, 1893 PA 206, MCL 211.154, and appealed to the state tax commission the 2011 classification and valuation of the power plant.

(iii) The district received a reduced amount of local school operating revenue for tax years 2009, 2010, and 2011 as a result of the exemptions of industrial personal property and commercial personal property under section 1211 of the revised school code, MCL 380.1211.

(iv) A settlement agreement has been signed to resolve the Michigan tax tribunal appeal described in subparagraph (ii) and a memorandum of understanding that stipulates terms of the settlement has been executed by the parties.

(b) A payment made under this subsection shall be in addition to renaissance zone reimbursement amounts paid in the 2009-2010 and 2010-2011 state fiscal years under section 26a to districts eligible for payment under this subsection. The 2009-2010 and 2010-2011 state fiscal year payments under section 26a to a district receiving a payment under this subsection shall not be reduced as a result of the reduction to the district's 2009 and 2010 taxable value of real property under the appeals described in subdivision (a)(ii).

(3) In order to receive an allocation under subsection (1), each district shall do all of the following:

(a) Administer in each grade level that it operates in grades 1 to 5 a standardized assessment approved by the department of grade-appropriate basic educational skills. A district may use the Michigan literacy progress profile to satisfy this requirement for grades 1 to 3. Also, if the revised school code is amended to require annual assessments at additional grade levels, in order to receive an allocation under this section each district shall comply with that requirement.

(b) Comply with sections 1278a and 1278b of the revised school code, MCL 380.1278a and 380.1278b.

(c) Furnish data and other information required by state and federal law to the center and the department in the form and manner specified by the center or the department, as applicable.

(d) Comply with section 1230g of the revised school code, MCL 380.1230g.

(4) Districts are encouraged to use funds allocated under this section for the purchase and support of payroll, human resources, and other business function software that is compatible with that of the intermediate district in which the district is located and with other districts located within that intermediate district.

(5) From the allocation in subsection (1), the department shall pay up to \$1,000,000.00 in litigation costs incurred by this state related to commercial or industrial property tax appeals, including, but not limited to, appeals of classification, that impact revenues dedicated to the state school aid fund.

(6) From the allocation in subsection (1), the department shall pay up to \$1,000,000.00 in litigation costs incurred by this state associated with lawsuits filed by 1 or more districts or intermediate districts against this state. If the allocation under this section is insufficient to fully fund all payments required under this section, the payments under this subsection shall be made in full before any proration of remaining payments under this section.

(7) It is the intent of the legislature that all constitutional obligations of this state have been fully funded under sections 22a, 31d, 51a, 51c, and 152a. If a claim is made by an entity receiving funds under this article that challenges the legislative determination of the adequacy of this funding or alleges that there exists an unfunded constitutional requirement, the state budget director may escrow or allocate from the discretionary

funds for nonmandated payments under this section the amount as may be necessary to satisfy the claim before making any payments to districts under subsection (2). If funds are escrowed, the escrowed funds are a work project appropriation and the funds are carried forward into the following fiscal year. The purpose of the work project is to provide for any payments that may be awarded to districts as a result of litigation. The work project shall be completed upon resolution of the litigation.

(8) If the local claims review board or a court of competent jurisdiction makes a final determination that this state is in violation of section 29 of article IX of the state constitution of 1963 regarding state payments to districts, the state budget director shall use work project funds under subsection (7) or allocate from the discretionary funds for nonmandated payments under this section the amount as may be necessary to satisfy the amount owed to districts before making any payments to districts under subsection (2).

(9) If a claim is made in court that challenges the legislative determination of the adequacy of funding for this state's constitutional obligations or alleges that there exists an unfunded constitutional requirement, any interested party may seek an expedited review of the claim by the local claims review board. If the claim exceeds \$10,000,000.00, this state may remove the action to the court of appeals, and the court of appeals shall have and shall exercise jurisdiction over the claim.

(10) If payments resulting from a final determination by the local claims review board or a court of competent jurisdiction that there has been a violation of section 29 of article IX of the state constitution of 1963 exceed the amount allocated for discretionary nonmandated payments under this section, the legislature shall provide for adequate funding for this state's constitutional obligations at its next legislative session.

(11) If a lawsuit challenging payments made to districts related to costs reimbursed by federal title XIX medicaid funds is filed against this state, then, for the purpose of addressing potential liability under such a lawsuit, the state budget director may place funds allocated under this section in escrow or allocate money from the funds otherwise allocated under this section, up to a maximum of 50% of the amount allocated in subsection (1). If funds are placed in escrow under this subsection, those funds are a work project appropriation and the funds are carried forward into the following fiscal year. The purpose of the work project is to provide for any payments that may be awarded to districts as a result of the litigation. The work project shall be completed upon resolution of the litigation. In addition, this state reserves the right to terminate future federal title XIX medicaid reimbursement payments to districts if the amount or allocation of reimbursed funds is challenged in the lawsuit. As used in this subsection, "title XIX" means title XIX of the social security act, 42 USC 1396 to 1396v.

(12) Not later than January 1, 2013, the department shall submit a report to the legislature identifying the amount of the savings that the department has calculated as having been achieved due to the revised number of instructional hours used to calculate full-time equated memberships for kindergarten pupils under section 6(4)(r) as amended by 2011 PA 62.

A district that does not directly employ its staff is considered to have satisfied this requirement.

(b) The district has obtained competitive bids on the provision of pupil transportation, food service, custodial, or 1 or more other noninstructional services for 2012-2013.

(3) If the department determines that a district has intentionally submitted false information in order to qualify for an incentive payment under this section, the district forfeits an amount equal to the amount it received under this section from its total state school aid for 2013-2014.

(4) If the department determines that funds allocated under this section will remain unexpended after the initial allocation of \$52.00 per pupil to eligible districts under subsection (2), the remaining unexpended amount is allocated on an equal per pupil basis to districts that meet the requirements of subsection (2) and that have a foundation allowance, as calculated under section 20, in an amount that is less than the basic foundation allowance under that section.

(1) From the state school aid fund money appropriated in section 11, there is allocated for 2011-2012 only an amount not to exceed \$4,000,000.00 for distressed district student transition grants under this section. The department shall pay these grants to districts that qualify under subsection (2) or a district or intermediate district that qualifies under subsection (3). The amount of a distressed district student transition grant is an amount equal to \$4,000.00 per qualifying pupil, adjusted by the pupil's full-time equated status as affected by the membership definition under section 6(4).

(2) A district qualifies for a distressed district student transition grant under this subsection if the district enrolls 1 or more qualifying pupils in the district. All of the following apply to a grant to a district that qualifies under this subsection:

(a) In order to be eligible for a grant, the district shall allow enrollment of qualifying pupils in the district beginning by not later than March 5, 2012.

(b) The total amount of the district's grant is the per pupil amount described in subsection (1) multiplied by the number of full-time equated qualifying pupils who are actually enrolled and in regular daily attendance in the district in grades K to 12 on March 22, 2012, as reported to the center for educational performance and information by not later than May 2, 2012. All pupil counts used in this subsection are as determined by the department and calculated by adding the number of pupils registered for attendance as defined by rules promulgated by the superintendent, and as corrected by a subsequent department audit.

(c) The district is not required to have the approval of the distressed district to enroll a qualifying pupil and receive a grant for the pupil under this subsection.

(d) The district offering to enroll qualifying pupils under this subsection may limit the number of qualifying pupils it accepts in a grade, school, or program, at its discretion, and may use that limit as the reason for refusal to enroll a qualifying pupil.

(e) A qualifying pupil shall not be granted or refused enrollment based on intellectual, academic, artistic, or other ability, talent, or accomplishment, or lack thereof, or based on a mental or physical disability, except that a district may refuse to admit a qualifying pupil if the applicant does not meet the same criteria, other than residence, that an applicant who is a resident of the district must meet to be accepted for enrollment in a grade or a specialized, magnet, or intradistrict choice school or program to which the applicant applies.

(f) A qualifying pupil shall not be granted or refused enrollment based on age, except that a district may refuse to admit a qualifying pupil applying for a program that is not appropriate for the age of the applicant.

(g) A qualifying pupil shall not be granted or refused enrollment based upon religion, race, color, national origin, sex, height, weight, marital status, or athletic ability, or, generally, in violation of any state or federal law prohibiting discrimination.

(h) A district may refuse to enroll a qualifying pupil if any of the following are met:

(i) The qualifying pupil is, or has been within the preceding 2 years, suspended from another school.

(ii) The qualifying pupil, at any time before enrolling under this section, has been expelled from another school.

(iii) The qualifying pupil, at any time before enrolling under this section, has been convicted of a felony.

(3) A district or intermediate district qualifies for a distressed district student transition grant under this subsection if the district or intermediate district is a party to a memorandum of agreement with a distressed district that has an emergency manager appointed for the distressed district under the local government and school district fiscal accountability act, 2011 PA 4, MCL 141.1501 to 141.1531, and the memorandum of agreement makes the other district or intermediate district the managing district for the distressed district and meets the other requirements under this subsection. All of the following apply to a grant under this subsection:

(a) The memorandum of agreement must meet all of the following requirements:

(i) Transfers the functions of managing the distressed district to the managing district and specifies the powers, duties, rights, obligations, functions, and responsibilities that are transferred to the managing district and the services to be provided by the managing district.

(ii) Ensures payment for the personnel of the distressed district as necessary for the education of the pupils

who are counted in the distressed district under subdivision (b) for the remainder of the 2011-2012 school year.

(iii) Both the identity of the managing district and the content of the memorandum of agreement are approved by the state treasurer.

(iv) If the memorandum of agreement makes an intermediate district the managing district for the distressed district, the distressed district is located within that intermediate district.

(b) The total amount of the managing district's grant under this subsection is the per pupil amount described in subsection (1) multiplied by the number of full-time equated qualifying pupils who remain enrolled in the distressed district and who are actually enrolled and in regular daily attendance in the distressed district in grades K to 12 on March 22, 2012, as reported by the managing district to the center for educational performance and information by not later than May 2, 2012. All pupil counts used in this subsection are as determined by the department and calculated by adding the number of pupils registered for attendance as defined by rules promulgated by the superintendent, and as corrected by a subsequent department audit.

(4) Notwithstanding section 17b, grant payments under this section shall be paid on a schedule and in a manner determined by the department.

(5) As used in this section:

(a) "Distressed district" means a district that meets all of the following:

(i) Is located in a county with a population in excess of 800,000 as of the most recent decennial census.

388.1622i Technology infrastructure grants to districts or intermediate districts.

Sec. 22i. (1) From the funds appropriated in section 11, there is allocated for 2012-2013 an amount not to exceed \$50,000,000.00 for technology infrastructure grants to districts or to intermediate districts on behalf of their constituent districts. A grant to an intermediate district on behalf of its constituent districts shall not exceed \$2,000,000.00 per constituent district. To receive a grant under this section, an intermediate district shall demonstrate that a grant awarded to the intermediate district on behalf of its constituent districts would provide savings compared to providing grants to individual districts.

388.1622j Incentive payments for student performance.

Sec. 22j. (1) From the appropriation in section 11, there is allocated for 2012-2013 an amount not to exceed \$30,000,000.00 to provide separate incentive payments to districts that meet student academic performance funding goals under subsections (2) to (5). Payments received under this section may be used for any purpose for which payments under sections 22a and 22b may be used.

(2) The maximum amount of the incentive payment for student academic performance is an amount equal to \$100.00 per pupil. Payments calculated and awarded to qualifying districts under subsections (3) to (5) shall be calculated and awarded separately, and a district may receive a payment under any or all of subsections (3) to (5).

(3) An amount not to exceed 30% of the maximum per pupil amount allocated under subsection (2) shall be used to make performance incentive payments to qualifying districts under this subsection based on pupil performance on state assessments in mathematics in grades 3 to 8. The amount of a payment under this subsection is an amount equal to \$30.00 per pupil for all pupils in membership in a qualifying district. The department shall determine the qualifying districts under this subsection as follows:

(a) Using a model determined by the department that incorporates the most recent cut scores adopted for the Michigan educational assessment program for each pupil in grades 3 to 8 in the 2010-2011 school year,

the department shall calculate a point score using a metric that assigns points to each of those pupils as follows:

(i) For each pupil who began the school year not performing proficiently in mathematics and who declines in proficiency, as determined by the department, over the school year, 0 points.

(ii) For each pupil who began the school year performing proficiently in mathematics and declines in proficiency, as determined by the department, over the school year, 0 points.

(iii) For each pupil who began the school year not performing proficiently in mathematics and who maintains his or her level of proficiency, as determined by the department, over the school year, 1 point.

(iv) For each pupil who began the school year performing proficiently in mathematics and who maintains his or her level of proficiency, as determined by the department, over the school year, 2 points.

(v) For each pupil who began the school year not performing proficiently in mathematics and who improves in proficiency, as determined by the department, over the school year, 3 points.

(vi) For each pupil who began the school year performing proficiently in mathematics and who improves in proficiency, as determined by the department, over the school year, 2 points.

(b) The department shall then calculate a district average for this metric for the 2010-2011 school year by totaling the number of points for all pupils in grades 3 to 8 under subdivision (a) and dividing that total by the number of those pupils.

(c) A district is a qualifying district for the payment under this subsection if the district average for the 2010-2011 school year under subdivision (b) is at least equal to a factor of 1.5, and the district tested at least 95% of its pupils in mathematics, and the district had at least 30 full academic year pupils in grades 3 to 8 with a performance level change designation in mathematics.

(4) An amount not to exceed 30% of the maximum per pupil amount allocated under subsection (2) shall be used to make performance incentive payments to qualifying districts under this subsection based on pupil performance on state assessments in reading in grades 3 to 8. The amount of a payment under this subsection is an amount equal to \$30.00 per pupil for all pupils in membership in the district. The department shall determine the qualifying districts under this subsection as follows:

(a) Using a model determined by the department that incorporates the most recent cut scores adopted for the Michigan educational assessment program for each pupil in grades 3 to 8 in the 2010-2011 school year, the department shall calculate a point score using a metric that assigns points to each of those pupils as follows:

(i) For each pupil who began the school year not performing proficiently in reading and who declines in proficiency, as determined by the department, over the school year, 0 points.

(ii) For each pupil who began the school year performing proficiently in reading and declines in proficiency, as determined by the department, over the school year, 0 points.

(iii) For each pupil who began the school year not performing proficiently in reading and who maintains proficiency, as determined by the department, over the school year, 1 point.

(iv) For each pupil who began the school year performing proficiently in reading and who maintains proficiency, as determined by the department, over the school year, 2 points.

(v) For each pupil who began the school year not performing proficiently in reading and who improves in proficiency, as determined by the department, over the school year, 3 points.

(vi) For each pupil who began the school year performing proficiently in reading and who improves in proficiency, as determined by the department, over the school year, 2 points.

(b) The department shall then calculate a district average for this metric for the 2010-2011 school year by totaling the number of points for all pupils in grades 3 to 8 under subdivision (a) and dividing that total by the number of those pupils.

(c) A district is a qualifying district for the payment under this subsection if the district average for the 2010-2011 school year under subdivision (b) is at least equal to a factor of 1.5, and the district tested at least 95% of its pupils in reading, and the district had at least 30 full academic year pupils in grades 3 to 8 reading with a performance level change designation in reading.

(5) An amount not to exceed 40% of the maximum per pupil amount allocated under subsection (2) shall be used to make performance incentive payments to qualifying districts under this subsection for high school improvement using a metric based on the positive trend over a 4-year period in the percentage of high school pupils in the district testing as proficient in all tested subject areas on the state assessments of high school pupils. The amount of a payment under this subsection is an amount equal to \$40.00 per pupil for all pupils in membership in the district. The department shall determine the qualifying districts under this subsection as follows:

(a) Calculate a linear regression of the percentage of high school pupils in the district testing as proficient in all tested subject areas on state assessments of high school pupils on school year over the 4-year period

ending with the 2010-2011 school year as adjusted for changes in cut scores most recently adopted for the Michigan merit examination.

(b) Calculate a statewide average for all districts operating a high school of the linear regression of the percentage of high school pupils testing as proficient in all tested subject areas on state assessments of high school pupils on school year over the 4-year period ending with the 2010-2011 school year, as adjusted for changes in cut scores most recently adopted for the Michigan merit examination as the base year for all comparisons.

(c) A district is a qualifying district for the payment under this subsection if the district's linear regression over the 4-year period ending with the 2010-2011 school year under subdivision (a) is at least equal to the statewide average linear regression over the 4-year period ending with the base year under subdivision (b), and the district's linear regression over the 4-year period ending with the 2010-2011 school year under subdivision (a) is positive, and the district tested 95% of high school pupils in each tested subject on the Michigan merit examination, and the district had at least 20 full academic year pupils take all tested subjects on the Michigan merit examination over each of the most recent 4 years.

(6) If the allocation under subsection (1) is insufficient to fully fund payments as otherwise calculated under this section, the department shall prorate payments under this section on an equal percentage basis.

388.1623a Dropout recovery program.

Sec. 23a. (1) A dropout recovery program operated by a district qualifies for the special membership counting provisions of section 6(4)(ff) and the hours and day of pupil instruction exemption under section 101(12) if the dropout recovery program meets all of the following:

(a) Enrolls only eligible pupils.

(b) Provides an advocate. An advocate may serve in that role for more than 1 pupil but no more than 50 pupils. An advocate may be employed by the district or may be provided by an education management organization that is partnering with the district. Before an individual is assigned to be an advocate for a pupil in the dropout recovery program, the district shall comply with sections 1230 and 1230a of the revised school code, MCL 380.1230 and 380.1230a, with respect to that individual.

(c) Develops a written learning plan.

(d) Monitors the pupil's progress against the written learning plan.

(e) Requires each pupil to make satisfactory monthly progress, as defined by the district under subsection (2).

(f) Reports the pupil's progress results to the partner district at least monthly.

(g) The program may be operated on or off a district school campus, but may be operated using distance learning online only if the program provides a computer and internet access for each eligible pupil participating in the program.

(h) Is operated throughout the entire calendar year.

(i) If the district partners with an education management organization for the program, the education management organization has a dropout recovery program partnership relationship with at least 1 other district.

(2) A district operating a dropout recovery program under this section shall adopt a definition of satisfactory monthly progress that is consistent with the definition of that term under subsection (3).

(3) As used in this section:

(a) "Advocate" means an adult available to meet in person with assigned pupils, as needed, to conduct social interventions, to proctor final examinations, and to provide academic and social support to pupils enrolled in the district's dropout recovery program.

(b) "Education management organization" means a private provider that operates 1 or more other dropout recovery programs that meet the requirements of this section in partnership with 1 or more districts.

(c) "Eligible pupil" means a pupil who has been expelled from school under the mandatory expulsion provisions in section 1311 or 1311a of the revised school code, MCL 380.1311 and 380.1311a, a pupil who has been suspended or expelled from school under a local policy, a pupil who is referred by a court, a pupil who is pregnant or is a parent, a pupil who was previously a dropout, or a pupil who is determined by the district to be at risk of dropping out.

(d) "Satisfactory monthly progress" means an amount of progress that is measurable on a monthly basis and that, if continued for a full 12 months, would result in the same amount of academic credit being awarded

to the pupil as would be awarded to a general education pupil completing a full school year. Satisfactory monthly progress may include a lesser required amount of progress for the first 2 months a pupil participates in the program.

(e) "Written learning plan" means a written plan developed in conjunction with the advocate that includes the plan start and end dates, courses to be taken, credit to be earned for each course, teacher of record for each course, and advocate name and contact information.

Sec. 24. (1) From the appropriation in section 11, there is allocated for 2012-2013 an amount not to exceed \$8,000,000.00 for payments to the educating district or intermediate district for educating pupils assigned by a court or the department of human services to reside in or to attend a juvenile detention facility or child caring institution licensed by the department of human services and approved by the department to provide an on-grounds education program. The amount of the payment under this section to a district or intermediate district shall be calculated as prescribed under subsection (2).

(2) The total amount allocated under this section shall be allocated by paying to the educating district or intermediate district an amount equal to the lesser of the district's or intermediate district's added cost or the department's approved per pupil allocation for the district or intermediate district. For the purposes of this subsection:

(a) "Added cost" means 100% of the added cost each fiscal year for educating all pupils assigned by a court or the department of human services to reside in or to attend a juvenile detention facility or child caring institution licensed by the department of human services or the department of licensing and regulatory affairs and approved by the department to provide an on-grounds education program. Added cost shall be computed by deducting all other revenue received under this act for pupils described in this section from total costs, as approved by the department, in whole or in part, for educating those pupils in the on-grounds education program or in a program approved by the department that is located on property adjacent to a juvenile detention facility or child caring institution. Costs reimbursed by federal funds are not included.

(b) "Department's approved per pupil allocation" for a district or intermediate district shall be determined by dividing the total amount allocated under this section for a fiscal year by the full-time equated membership total for all pupils approved by the department to be funded under this section for that fiscal year for the district or intermediate district.

(3) A district or intermediate district educating pupils described in this section at a residential child caring institution may operate, and receive funding under this section for, a department-approved on-grounds educational program for those pupils that is longer than 181 days, but not longer than 233 days, if the child caring institution was licensed as a child caring institution and offered in 1991-92 an on-grounds educational program that was longer than 181 days but not longer than 233 days and that was operated by a district or intermediate district.

(4) Special education pupils funded under section 53a shall not be funded under this section.

Compiler's note: Subsection (3) of Sec. 24, as amended by Act 128 of 1987, was vetoed by the governor on July 24, 1987.

Subsection (3) of Sec. 24, as amended by Act 212 of 1986, reads as follows:

“(3) Special education pupils funded under section 53 shall not be counted under this section.”

In his veto message relative to Enrolled House Bill 4572, which became Act 118 of 1991, the governor stated that “the tradition of not re-enacting annually the unchanged appropriation sections of the school aid act is constitutionally flawed. It assumes the invalid creation of a continuing appropriation. Therefore, the following sections of the school aid act and their associated allocations must be considered inoperative: 24, 55, 74, 75, 105a, 111, and 116. These sections will be treated as excluded from the current bill... .”

In subsection (2), as amended by Act 297 of 2000, the last sentence “In addition, a district or intermediate district that received funds under this subsection for 1998-99 for an on-grounds educational program that is longer than 181 days but not longer than 233 days shall continue to receive funds under this section for subsequent fiscal years for that program” was vetoed by the governor July 26, 2000.

In the first and second sentences of subsection (1), as amended by Act 121 of 2001, the phrases “and for 2002-2003” and “and \$8,900,000.00 for 2002-2003” were vetoed by the governor September 28, 2001.

Enacting section 3 of Act 521 of 2002 provides:

“Enacting section 3. This amendatory act does not take effect unless the tax on cigarettes under the tobacco products tax act, 1993 PA 327, MCL 205.421 to 205.436, is increased by 50 cents or more per pack of cigarettes (25 mills per cigarette) effective on or before September 30, 2002 and the revenue from not less than 20 cents per pack of cigarettes (10 mills per cigarette) of that increase is dedicated by law for deposit into the state school aid fund established by section 11 of article IX of the state constitution of 1963.”

388.1631a Funding to eligible districts, public school academies, and education achievement system; additional allowance; number of pupils meeting criteria for free breakfast, lunch, or milk; early intervening program; "at-risk pupil" defined; anti-bullying or crisis intervention program.

Sec. 31a. (1) From the state school aid fund money appropriated in section 11, there is allocated for 2012-2013 an amount not to exceed \$317,695,500.00 for payments to eligible districts, eligible public school academies, and the education achievement system under this section. Subject to subsection (14), the amount of the additional allowance under this section, other than funding under subsection (6) or (7), shall be based on the number of actual pupils in membership in the district or public school academy or the education achievement system who met the income eligibility criteria for free breakfast, lunch, or milk in the immediately preceding state fiscal year, as determined under the Richard B. Russell national school lunch act, 42 USC 1751 to 1769i, and reported to the department not later than the fifth Wednesday after the pupil

membership count day of the immediately preceding fiscal year and adjusted not later than December 31 of the immediately preceding fiscal year in the form and manner prescribed by the center. However, for a public school academy that began operations as a public school academy, or for an achievement school that began operations as an achievement school, after the pupil membership count day of the immediately preceding school year, the basis for the additional allowance under this section shall be the number of actual pupils in membership in the public school academy or the education achievement system who met the income eligibility criteria for free breakfast, lunch, or milk in the current state fiscal year, as determined under the Richard B. Russell national school lunch act and reported to the department not later than the fifth Wednesday after the pupil membership count day.

(2) To be eligible to receive funding under this section, other than funding under subsection (6) or (7), a district or public school academy that has not been previously determined to be eligible or the education achievement system shall apply to the department, in a form and manner prescribed by the department, and a district or public school academy or the education achievement system must meet all of the following:

(a) The sum of the district's or public school academy's or the education achievement system's combined state and local revenue per membership pupil in the current state fiscal year, as calculated under section 20, is less than or equal to the basic foundation allowance under section 20 for the current state fiscal year.

(b) The district or public school academy or the education achievement system agrees to use the funding only for purposes allowed under this section and to comply with the program and accountability requirements under this section.

(3) Except as otherwise provided in this subsection, an eligible district or eligible public school academy or the education achievement system shall receive under this section for each membership pupil in the district or public school academy or the education achievement system who met the income eligibility criteria for free breakfast, lunch, or milk, as determined under the Richard B. Russell national school lunch act and as reported to the department not later than the fifth Wednesday after the pupil membership count day of the immediately preceding fiscal year and adjusted not later than December 31 of the immediately preceding fiscal year, an amount per pupil equal to 11.5% of the sum of the district's foundation allowance or the public school academy's or the education achievement system's per pupil amount calculated under section 20, not to exceed the basic foundation allowance under section 20 for the current state fiscal year, or of the public school academy's or the education achievement system's per membership pupil amount calculated under section 20 for the current state fiscal year. A public school academy that began operations as a public school academy, or an achievement school that began operations as an achievement school, after the pupil membership count day of the immediately preceding school year shall receive under this section for each membership pupil in the public school academy or in the education achievement system who met the income eligibility criteria for free breakfast, lunch, or milk, as determined under the Richard B. Russell national school lunch act and as reported to the department not later than the fifth Wednesday after the pupil membership count day of the current fiscal year and adjusted not later than December 31 of the current fiscal year, an amount per pupil equal to 11.5% of the public school academy's or the education achievement system's per membership pupil amount calculated under section 20 for the current state fiscal year.

(4) Except as otherwise provided in this section, a district or public school academy, or the education achievement system, receiving funding under this section shall use that money only to provide instructional programs and direct noninstructional services, including, but not limited to, medical or counseling services, for at-risk pupils; for school health clinics; and for the purposes of subsection (5), (6), or (7). In addition, a district that is a school district of the first class or a district or public school academy in which at least 50% of the pupils in membership met the income eligibility criteria for free breakfast, lunch, or milk in the immediately preceding state fiscal year, as determined and reported as described in subsection (1), or the education achievement system if it meets this requirement, may use not more than 20% of the funds it receives under this section for school security. A district, the public school academy, or the education achievement system shall not use any of that money for administrative costs or to supplant another program or other funds, except for funds allocated to the district or public school academy or the education achievement system under this section in the immediately preceding year and already being used by the district or public school academy or the education achievement system for at-risk pupils. The instruction or direct noninstructional services provided under this section may be conducted before or after regular school hours or by adding extra school days to the school year and may include, but are not limited to, tutorial services, early childhood programs to serve children age 0 to 5, and reading programs as described in former section 32f as in effect for 2001-2002. A tutorial method may be conducted with paraprofessionals working under the supervision of a certificated teacher. The ratio of pupils to paraprofessionals shall be between 10:1 and 15:1. Only 1 certificated teacher is required to supervise instruction using a tutorial method. As used in this subsection, "to supplant another program" means to take the place of a previously existing instructional

program or direct noninstructional services funded from a funding source other than funding under this section.

(5) Except as otherwise provided in subsection (12), a district or public school academy that receives funds under this section and that operates a school breakfast program under section 1272a of the revised school code, MCL 380.1272a, or the education achievement system if it operates a school breakfast program, shall use from the funds received under this section an amount, not to exceed \$10.00 per pupil for whom the district or public school academy or the education achievement system receives funds under this section, necessary to pay for costs associated with the operation of the school breakfast program.

(6) From the funds allocated under subsection (1), there is allocated for 2012-2013 an amount not to exceed \$3,557,300.00 to support child and adolescent health centers. These grants shall be awarded for 5 consecutive years beginning with 2003-2004 in a form and manner approved jointly by the department and the department of community health. Each grant recipient shall remain in compliance with the terms of the grant award or shall forfeit the grant award for the duration of the 5-year period after the noncompliance. To continue to receive funding for a child and adolescent health center under this section a grant recipient shall ensure that the child and adolescent health center has an advisory committee and that at least one-third of the members of the advisory committee are parents or legal guardians of school-aged children. A child and adolescent health center program shall recognize the role of a child's parents or legal guardian in the physical and emotional well-being of the child. Funding under this subsection shall be used to support child and adolescent health center services provided to children up to age 21. If any funds allocated under this subsection are not used for the purposes of this subsection for the fiscal year in which they are allocated, those unused funds shall be used that fiscal year to avoid or minimize any proration that would otherwise be required under subsection (14) for that fiscal year.

(7) From the funds allocated under subsection (1), there is allocated for 2012-2013 an amount not to exceed \$5,150,000.00 for the state portion of the hearing and vision screenings as described in section 9301 of the public health code, 1978 PA 368, MCL 333.9301. A local public health department shall pay at least 50% of the total cost of the screenings. The frequency of the screenings shall be as required under R 325.13091 to R 325.13096 and R 325.3271 to R 325.3276 of the Michigan administrative code. Funds shall be awarded in a form and manner approved jointly by the department and the department of community health. Notwithstanding section 17b, payments to eligible entities under this subsection shall be paid on a schedule determined by the department.

(8) Each district or public school academy receiving funds under this section and the education achievement system shall submit to the department by July 15 of each fiscal year a report, not to exceed 10 pages, on the usage by the district or public school academy or the education achievement system of funds under this section, which report shall include at least a brief description of each program conducted by the district or public school academy or the education achievement system using funds under this section, the amount of funds under this section allocated to each of those programs, the number of at-risk pupils eligible for free or reduced price school lunch who were served by each of those programs, and the total number of at-risk pupils served by each of those programs. If a district or public school academy or the education achievement system does not comply with this subsection, the department shall withhold an amount equal to the August payment due under this section until the district or public school academy or the education achievement system complies with this subsection. If the district or public school academy or the education achievement system does not comply with this subsection by the end of the state fiscal year, the withheld funds shall be forfeited to the school aid fund.

(9) In order to receive funds under this section, a district or public school academy or the education achievement system shall allow access for the department or the department's designee to audit all records related to the program for which it receives those funds. The district or public school academy or the education achievement system shall reimburse the state for all disallowances found in the audit.

(10) Subject to subsections (5), (6), (7), (12), and (13), any district may use up to 100% of the funds it receives under this section to reduce the ratio of pupils to teachers in grades K-12, or any combination of those grades, in school buildings in which the percentage of pupils described in subsection (1) exceeds the district's aggregate percentage of those pupils. Subject to subsections (5), (6), (7), (12), and (13), if a district obtains a waiver from the department, the district may use up to 100% of the funds it receives under this section to reduce the ratio of pupils to teachers in grades K-12, or any combination of those grades, in school buildings in which the percentage of pupils described in subsection (1) is at least 60% of the district's aggregate percentage of those pupils and at least 30% of the total number of pupils enrolled in the school building. To obtain a waiver, a district must apply to the department and demonstrate to the satisfaction of the department that the class size reductions would be in the best interests of the district's at-risk pupils.

(11) A district or public school academy or the education achievement system may use funds received

under this section for adult high school completion, general educational development (G.E.D.) test preparation, adult English as a second language, or adult basic education programs described in section 107.

(12) For an individual school or schools operated by a district or public school academy receiving funds under this section or the education achievement system that have been determined by the department to meet the adequate yearly progress standards of the no child left behind act of 2001, Public Law 107-110, in both mathematics and English language arts at all applicable grade levels for all applicable subgroups, the district or public school academy or the education achievement system may use not more than 20% of the funds it receives under this section for specific alternative purposes identified by the district or public school academy or the education achievement system that are designed to benefit at-risk pupils in the school, but that may be different from the purposes otherwise allowable under this section. If a district or public school academy or the education achievement system uses funds for alternative purposes allowed under the flexibility provisions under this subsection, the district or public school academy or the education achievement system shall maintain documentation of the amounts used for those alternative purposes and shall make that information available to the department upon request.

(13) A district or public school academy that receives funds under this section or the education achievement system may use funds it receives under this section to implement and operate an early intervening program for pupils in grades K to 3 that meets either or both of the following:

(a) Monitors individual pupil learning and provides specific support or learning strategies to pupils as early as possible in order to reduce the need for special education placement. The program shall include literacy and numeracy supports, sensory motor skill development, behavior supports, instructional consultation for teachers, and the development of a parent/school learning plan. Specific support or learning strategies may include support in or out of the general classroom in areas including reading, writing, math, visual memory, motor skill development, behavior, or language development. These would be provided based on an understanding of the individual child's learning needs.

(b) Provides early intervening strategies using school-wide systems of academic and behavioral supports and is scientifically research-based. The strategies to be provided shall include at least pupil performance indicators based upon response to intervention, instructional consultation for teachers, and ongoing progress monitoring. A school-wide system of academic and behavioral support should be based on a support team available to the classroom teachers. The members of this team could include the principal, special education staff, reading teachers, and other appropriate personnel who would be available to systematically study the needs of the individual child and work with the teacher to match instruction to the needs of the individual child.

(14) If necessary, and before any proration required under section 11, the department shall prorate payments under this section by reducing the amount of the per pupil payment under this section by a dollar amount calculated by determining the amount by which the amount necessary to fully fund the requirements of this section exceeds the maximum amount allocated under this section and then dividing that amount by the total statewide number of pupils who met the income eligibility criteria for free breakfast, lunch, or milk in the immediately preceding fiscal year, as described in subsection (1).

(15) If a district is formed by consolidation after June 1, 1995, and if 1 or more of the original districts was not eligible before the consolidation for an additional allowance under this section, the amount of the additional allowance under this section for the consolidated district shall be based on the number of pupils described in subsection (1) enrolled in the consolidated district who reside in the territory of an original district that was eligible before the consolidation for an additional allowance under this section.

(16) As used in this section, "at-risk pupil" means a pupil for whom the district has documentation that the pupil meets at least 2 of the following criteria: is a victim of child abuse or neglect; is below grade level in English language and communication skills or mathematics; is a pregnant teenager or teenage parent; is eligible for a federal free or reduced-price lunch subsidy; has atypical behavior or attendance patterns; or has a family history of school failure, incarceration, or substance abuse. For pupils for whom the results of at least the applicable Michigan education assessment program (MEAP) test have been received, at-risk pupil also includes a pupil who does not meet the other criteria under this subsection but who did not achieve at least a score of level 2 on the most recent MEAP English language arts, mathematics, science test, or social studies for which results for the pupil have been received. For pupils for whom the results of the Michigan merit examination have been received, at-risk pupil also includes a pupil who does not meet the other criteria under this subsection but who did not achieve proficiency on the reading component of the most recent Michigan merit examination for which results for the pupil have been received, did not achieve proficiency on the mathematics component of the most recent Michigan merit examination for which results for the pupil have been received, or did not achieve basic competency on the science component of the most recent Michigan merit examination for which results for the pupil have been received. For pupils in grades K-3, at-risk pupil

also includes a pupil who is at risk of not meeting the district's core academic curricular objectives in English language arts or mathematics.

(17) A district or public school academy that receives funds under this section or the education achievement system may use funds received under this section to provide an anti-bullying or crisis intervention program.

(a) Ensure compliance with all program components described in subsection (4).

(b) Ensure that more than 75% of the children participating in an eligible great start readiness program are children who live with families with a household income that is equal to or less than 300% of the federal poverty level.

(c) Ensure that the applicant only uses qualified personnel for this program, as follows:

(i) Teachers possessing proper training. For programs managed directly by a district or intermediate district, a valid teaching certificate and an early childhood (ZA or ZS) endorsement are required. This provision does not apply to a district, intermediate district, or competitive program that subcontracts with an eligible child development program. In that situation, a teacher must have a valid Michigan teaching certificate with an early childhood (ZA or ZS) endorsement, a valid Michigan elementary teaching certificate with a child development associate credential, or a bachelor's degree in child development with specialization in preschool teaching. However, if an applicant demonstrates to the department that it is unable to fully comply with this subparagraph after making reasonable efforts to comply, teachers who have significant but incomplete training in early childhood education or child development may be used if the applicant provides to the department, and the department approves, a plan for each teacher to come into compliance with the standards in this subparagraph. A teacher's compliance plan must be completed within 2 years of the date of employment. Progress toward completion of the compliance plan shall consist of at least 2 courses per calendar year.

(ii) Paraprofessionals possessing proper training in early childhood development, including an associate's degree in early childhood education or child development or the equivalent, or a child development associate (CDA) credential. However, if an applicant demonstrates to the department that it is unable to fully comply with this subparagraph after making reasonable efforts to comply, the applicant may use paraprofessionals who have completed at least 1 course that earns college credit in early childhood education or child development if the applicant provides to the department, and the department approves, a plan for each paraprofessional to come into compliance with the standards in this subparagraph. A paraprofessional's compliance plan must be completed within 2 years of the date of employment. Progress toward completion of the compliance plan shall consist of at least 2 courses or 60 clock hours of training per calendar year.

(d) Include a program budget that contains only those costs that are not reimbursed or reimbursable by federal funding, that are clearly and directly attributable to the great start readiness program, and that would not be incurred if the program were not being offered. The program budget shall indicate the extent to which these funds will supplement other federal, state, local, or private funds. Funds received under this section shall not be used to supplant any federal funds by the applicant to serve children eligible for a federally funded existing preschool program that has the capacity to serve those children.

(6) For a grant recipient that enrolls pupils in a school-day program funded under this section, each child enrolled in the school-day program shall be counted as 2 children served by the program for purposes of determining the number of children to be served and for determining the amount of the grant award. A grant award shall not be increased solely on the basis of providing a school-day program.

(7) An intermediate district or consortium of intermediate districts receiving a grant under this section may contract with for-profit or nonprofit preschool center providers that meet all requirements of subsection (4) and retain for administrative services an amount equal to not more than 5% of the grant amount. An intermediate district, consortium of intermediate districts, or competitive grant program may expend not more than 10% of the total grant amount for administration of the program.

(8) Any public or private for-profit or nonprofit legal entity or agency may apply for a competitive grant under this section. However, a district or intermediate district may not apply for a competitive grant under this section unless the district, intermediate district, or consortium of districts or intermediate districts is acting as a local grantee for the federal head start program operating under the head start act, 42 USC 9831 to 9852.

(9) A recipient of funds under this section shall report to the department in a form and manner prescribed by the department the number of children participating in the program who meet the income or other eligibility criteria prescribed by the department and the total number of children participating in the program. For children participating in the program who meet the income or other eligibility criteria specified under subsection (5)(b), a recipient shall also report whether or not a parent is available to provide care based on employment status. For the purposes of this subsection, "employment status" shall be defined by the department of human services in a manner consistent with maximizing the amount of spending that may be claimed for temporary assistance for needy families maintenance of effort purposes.

(10) As used in this section:

(a) "GSRP/head start blended program" means a part-day program funded under this section and a head start program, which are combined for a school-day program.

(b) "Part-day program" means a program that operates at least 4 days per week, 30 weeks per year, for at least 3 hours of teacher-child contact time per day but for fewer hours of teacher-child contact time per day than a school-day program.

(c) "School-day program" means a program that operates for at least the same length of day as a district's first grade program for a minimum of 4 days per week, 30 weeks per year. A classroom that offers a school-day program must enroll all children for the school day to be considered a school-day program.

(11) A grant recipient receiving funds under this section is encouraged to establish a sliding scale of tuition rates based upon a child's family income for the purpose of expanding eligible programs under this section. A grant recipient may charge tuition for programs provided under this section according to that sliding scale of tuition rates on a uniform basis for any child who does not meet the program eligibility requirements under this section.

(12) The department shall develop a plan for a multiyear phased-in approach to transfer funding for great start readiness programs under this section into an early childhood block grant program, along with funding for great start collaboratives under section 32b and funding for great parents, great start programs under section 32j. The early childhood block grant program will allocate funds to intermediate districts and consortia of intermediate districts to act as fiduciaries and provide administration of regional early childhood programs in conjunction with their regional great start collaborative to improve program quality, evaluation, and efficiency for early childhood programs. The department shall work with intermediate districts, districts, great start collaboratives, and the early childhood investment corporation to establish a revised funding formula, application process, program criteria, and data reporting requirements.

388.1639 Receipt of funds under MCL 388.1632d; preapplication; final application for approval; distribution in decreasing order of concentration of eligible children; priority in funding; supplementary day care; additional eligible children.

Sec. 39. (1) An eligible applicant receiving funds under section 32d shall submit a preapplication, in a form and manner prescribed by the department, by a date specified by the department in the immediately preceding state fiscal year. The preapplication shall include a comprehensive needs assessment using aggregated data from the applicant's entire service area and a community collaboration plan that is endorsed by the local great start collaborative and is part of the community's great start strategic plan that includes, but is not limited to, great start readiness program and head start providers, and shall identify all of the following:

(a) The estimated total number of children in the community who meet the criteria of section 32d and how that calculation was made.

(b) The estimated number of children in the community who meet the criteria of section 32d and are being served by other early childhood development programs operating in the community, and how that calculation was made.

(c) The number of children the applicant will be able to serve who meet the criteria of section 32d

including a verification of physical facility and staff resources capacity.

(d) The estimated number of children who meet the criteria of section 32d who will remain unserved after the applicant and community early childhood programs have met their funded enrollments. The applicant shall maintain a waiting list of identified unserved eligible children who would be served when openings are available.

(2) An applicant receiving funds under section 32d shall also submit a final application for approval, in a form and manner prescribed by the department, by a date specified by the department, that details how the applicant complies with the program components established by the department pursuant to section 32d.

(3) The number of prekindergarten children construed to be in need of special readiness assistance under section 32d shall be calculated for each applicant in the following manner: 1/2 of the percentage of the applicant's pupils in grades 1 to 5 in all districts served by the applicant who are eligible for free lunch, as determined using the district's pupil membership count as of the pupil membership count day in the school year prior to the fiscal year for which the calculation is made, under the Richard B. Russell national school lunch act, 42 USC 1751 to 1769i, shall be multiplied by the average kindergarten enrollment of the districts served by the applicant on the pupil membership count day of the 2 immediately preceding fiscal years.

(4) The initial allocation for each fiscal year to each eligible applicant under section 32d shall be determined by multiplying the number of children determined by the formula under subsection (3) or the number of children the applicant indicates it will be able to serve under subsection (1)(c), whichever is less, by \$3,400.00 and shall be distributed among applicants in decreasing order of concentration of eligible children as determined by the formula under subsection (3). If the number of children an applicant indicates it will be able to serve under subsection (1)(c) includes children able to be served in a school-day program, then the number able to be served in a school-day program shall be doubled for the purposes of making this calculation of the lesser of the number of children determined by the formula under subsection (3) and the number of children the applicant indicates it will be able to serve under subsection (1)(c) and determining the amount of the initial allocation to the applicant under section 32d. A district may contract with a head start agency to serve children enrolled in head start with a school-day program by blending head start funds with a part-day great start readiness program allocation. All head start and great start readiness program policies and regulations apply to the blended program.

(5) If funds allocated for eligible applicants in section 32d remain after the initial allocation under subsection (4), the allocation under this subsection shall be distributed to each eligible applicant under section 32d in decreasing order of concentration of eligible children as determined by the formula under subsection (3). The allocation shall be determined by multiplying the number of children each district within the applicant's service area served in the immediately preceding fiscal year or the number of children the applicant indicates it will be able to serve under subsection (1)(c), whichever is less, minus the number of children for which the applicant received funding in subsection (4) by \$3,400.00.

(6) If funds allocated for eligible applicants in section 32d remain after the allocations under subsections (4) and (5), remaining funds shall be distributed to each eligible applicant under section 32d in decreasing order of concentration of eligible children as determined by the formula under subsection (3). If the number of children the applicant indicates it will be able to serve under subsection (1)(c) exceeds the number of children for which funds have been received under subsections (4) and (5), the allocation under this subsection shall be determined by multiplying the number of children the applicant indicates it will be able to serve under subsection (1)(c) less the number of children for which funds have been received under subsections (4) and (5) by \$3,400.00 until the funds allocated for eligible applicants in section 32d are distributed.

(7) An applicant that offers supplementary child care funded by funds other than those received under section 32d and therefore offers full-day programs as part of its early childhood development program shall receive priority in the allocation of funds under section 32d over other eligible applicants. As used in this subsection, "full-day program" means a program that provides supplementary child care that totals at least 10 hours of programming per day.

(8) If, taking into account the total amount to be allocated to the applicant as calculated under this section, an applicant determines that it is able to include additional eligible children in the great start readiness program without additional funds under section 32d, the applicant may include additional eligible children but shall not receive additional funding under section 32d for those children.

Sec. 51a. (1) From the appropriation in section 11, there is allocated for 2011-2012 an amount not to exceed \$956,769,100.00 and there is allocated an amount not to exceed \$996,269,100.00 for 2012-2013 from state sources and all available federal funding under sections 611 to 619 of part B of the individuals with disabilities education act, 20 USC 1411 to 1419, estimated at \$363,400,000.00 for 2011-2012 and estimated at \$365,000,000.00 for 2012-2013, plus any carryover federal funds from previous year appropriations. The allocations under this subsection are for the purpose of reimbursing districts and intermediate districts for special education programs, services, and special education personnel as prescribed in article 3 of the revised school code, MCL 380.1701 to 380.1766; net tuition payments made by intermediate districts to the Michigan schools for the deaf and blind; and special education programs and services for pupils who are eligible for special education programs and services according to statute or rule. For meeting the costs of special education programs and services not reimbursed under this article, a district or intermediate district may use money in general funds or special education funds, not otherwise restricted, or contributions from districts to intermediate districts, tuition payments, gifts and contributions from individuals or other entities, or federal funds that may be available for this purpose, as determined by the intermediate district plan prepared pursuant to article 3 of the revised school code, MCL 380.1701 to 380.1766. All federal funds allocated under this section in excess of those allocated under this section for 2002-2003 may be distributed in accordance with the flexible funding provisions of the individuals with disabilities education act, Public Law 108-446, including, but not limited to, 34 CFR 300.206 and 300.208. Notwithstanding section 17b, payments of federal funds to districts, intermediate districts, and other eligible entities under this section shall be paid on a schedule determined by the department.

(2) From the funds allocated under subsection (1), there is allocated the amount necessary, estimated at \$247,500,000.00 for 2011-2012 and estimated at \$257,400,000.00 for 2012-2013, for payments toward reimbursing districts and intermediate districts for 28.6138% of total approved costs of special education, excluding costs reimbursed under section 53a, and 70.4165% of total approved costs of special education transportation. Allocations under this subsection shall be made as follows:

(a) The initial amount allocated to a district under this subsection toward fulfilling the specified percentages shall be calculated by multiplying the district's special education pupil membership, excluding pupils described in subsection (11), times the foundation allowance under section 20 of the pupil's district of residence, not to exceed the basic foundation allowance under section 20 for the current fiscal year, or, for a special education pupil in membership in a district that is a public school academy, times an amount equal to the amount per membership pupil calculated under section 20(6) or, for a pupil described in this subsection who is counted in membership in the education achievement system, times an amount equal to the amount per membership pupil under section 20(7). For an intermediate district, the amount allocated under this subdivision toward fulfilling the specified percentages shall be an amount per special education membership pupil, excluding pupils described in subsection (11), and shall be calculated in the same manner as for a district, using the foundation allowance under section 20 of the pupil's district of residence, not to exceed the basic foundation allowance under section 20 for the current fiscal year.

(b) After the allocations under subdivision (a), districts and intermediate districts for which the payments calculated under subdivision (a) do not fulfill the specified percentages shall be paid the amount necessary to achieve the specified percentages for the district or intermediate district.

(3) From the funds allocated under subsection (1), there is allocated each fiscal year for 2011-2012 and for 2012-2013 an amount not to exceed \$1,000,000.00 to make payments to districts and intermediate districts under this subsection. If the amount allocated to a district or intermediate district for a fiscal year under subsection (2)(b) is less than the sum of the amounts allocated to the district or intermediate district for 1996-97 under sections 52 and 58, there is allocated to the district or intermediate district for the fiscal year an amount equal to that difference, adjusted by applying the same proration factor that was used in the distribution of funds under section 52 in 1996-97 as adjusted to the district's or intermediate district's necessary costs of special education used in calculations for the fiscal year. This adjustment is to reflect reductions in special education program operations or services between 1996-97 and subsequent fiscal years. Adjustments for reductions in special education program operations or services shall be made in a manner determined by the department and shall include adjustments for program or service shifts.

(4) If the department determines that the sum of the amounts allocated for a fiscal year to a district or intermediate district under subsection (2)(a) and (b) is not sufficient to fulfill the specified percentages in subsection (2), then the shortfall shall be paid to the district or intermediate district during the fiscal year beginning on the October 1 following the determination and payments under subsection (3) shall be adjusted as necessary. If the department determines that the sum of the amounts allocated for a fiscal year to a district or intermediate district under subsection (2)(a) and (b) exceeds the sum of the amount necessary to fulfill the specified percentages in subsection (2), then the department shall deduct the amount of the excess from the district's or intermediate district's payments under this article for the fiscal year beginning on the October 1 following the determination and payments under subsection (3) shall be adjusted as necessary. However, if the amount allocated under subsection (2)(a) in itself exceeds the amount necessary to fulfill the specified percentages in subsection (2), there shall be no deduction under this subsection.

(5) State funds shall be allocated on a total approved cost basis. Federal funds shall be allocated under applicable federal requirements, except that an amount not to exceed \$3,500,000.00 may be allocated by the department each fiscal year for 2011-2012 and for 2012-2013 to districts, intermediate districts, or other eligible entities on a competitive grant basis for programs, equipment, and services that the department determines to be designed to benefit or improve special education on a statewide scale.

(6) From the amount allocated in subsection (1), there is allocated an amount not to exceed \$2,200,000.00 each fiscal year for 2011-2012 and for 2012-2013 to reimburse 100% of the net increase in necessary costs incurred by a district or intermediate district in implementing the revisions in the administrative rules for special education that became effective on July 1, 1987. As used in this subsection, "net increase in necessary costs" means the necessary additional costs incurred solely because of new or revised requirements in the administrative rules minus cost savings permitted in implementing the revised rules. Net increase in necessary costs shall be determined in a manner specified by the department.

(7) For purposes of sections 51a to 58, all of the following apply:

(a) "Total approved costs of special education" shall be determined in a manner specified by the department and may include indirect costs, but shall not exceed 115% of approved direct costs for section 52 and section 53a programs. The total approved costs include salary and other compensation for all approved

special education personnel for the program, including payments for social security and medicare and public school employee retirement system contributions. The total approved costs do not include salaries or other compensation paid to administrative personnel who are not special education personnel as defined in section 6 of the revised school code, MCL 380.6. Costs reimbursed by federal funds, other than those federal funds included in the allocation made under this article, are not included. Special education approved personnel not utilized full time in the evaluation of students or in the delivery of special education programs, ancillary, and other related services shall be reimbursed under this section only for that portion of time actually spent providing these programs and services, with the exception of special education programs and services provided to youth placed in child caring institutions or juvenile detention programs approved by the department to provide an on-grounds education program.

(b) Beginning with the 2004-2005 fiscal year, a district or intermediate district that employed special education support services staff to provide special education support services in 2003-2004 or in a subsequent fiscal year and that in a fiscal year after 2003-2004 receives the same type of support services from another district or intermediate district shall report the cost of those support services for special education reimbursement purposes under this article. This subdivision does not prohibit the transfer of special education classroom teachers and special education classroom aides if the pupils counted in membership associated with those special education classroom teachers and special education classroom aides are transferred and counted in membership in the other district or intermediate district in conjunction with the transfer of those teachers and aides.

(c) If the department determines before bookclosing for a fiscal year that the amounts allocated for that fiscal year under subsections (2), (3), (6), and (11) and sections 53a, 54, and 56 will exceed expenditures for that fiscal year under subsections (2), (3), (6), and (11) and sections 53a, 54, and 56, then for a district or intermediate district whose reimbursement for that fiscal year would otherwise be affected by subdivision (b), subdivision (b) does not apply to the calculation of the reimbursement for that district or intermediate district and reimbursement for that district or intermediate district shall be calculated in the same manner as it was for 2003-2004. If the amount of the excess allocations under subsections (2), (3), (6), and (11) and sections 53a, 54, and 56 is not sufficient to fully fund the calculation of reimbursement to those districts and intermediate districts under this subdivision, then the calculations and resulting reimbursement under this subdivision shall be prorated on an equal percentage basis. This reimbursement shall not be made after 2014-2015.

(d) Reimbursement for ancillary and other related services, as defined by R 340.1701c of the Michigan administrative code, shall not be provided when those services are covered by and available through private group health insurance carriers or federal reimbursed program sources unless the department and district or intermediate district agree otherwise and that agreement is approved by the state budget director. Expenses, other than the incidental expense of filing, shall not be borne by the parent. In addition, the filing of claims shall not delay the education of a pupil. A district or intermediate district shall be responsible for payment of a deductible amount and for an advance payment required until the time a claim is paid.

(e) Beginning with calculations for 2004-2005, if an intermediate district purchases a special education pupil transportation service from a constituent district that was previously purchased from a private entity; if the purchase from the constituent district is at a lower cost, adjusted for changes in fuel costs; and if the cost shift from the intermediate district to the constituent does not result in any net change in the revenue the constituent district receives from payments under sections 22b and 51c, then upon application by the intermediate district, the department shall direct the intermediate district to continue to report the cost associated with the specific identified special education pupil transportation service and shall adjust the costs reported by the constituent district to remove the cost associated with that specific service.

(8) A pupil who is enrolled in a full-time special education program conducted or administered by an intermediate district or a pupil who is enrolled in the Michigan schools for the deaf and blind shall not be included in the membership count of a district, but shall be counted in membership in the intermediate district of residence.

(9) Special education personnel transferred from 1 district to another to implement the revised school code shall be entitled to the rights, benefits, and tenure to which the person would otherwise be entitled had that person been employed by the receiving district originally.

(10) If a district or intermediate district uses money received under this section for a purpose other than the purpose or purposes for which the money is allocated, the department may require the district or intermediate district to refund the amount of money received. Money that is refunded shall be deposited in the state treasury to the credit of the state school aid fund.

(11) From the funds allocated in subsection (1), there is allocated the amount necessary, estimated at \$5,300,000.00 for 2011-2012 and estimated at \$5,600,000.00 for 2012-2013, to pay the foundation allowances for pupils described in this subsection. The allocation to a district under this subsection shall be

calculated by multiplying the number of pupils described in this subsection who are counted in membership in the district times the foundation allowance under section 20 of the pupil's district of residence, not to exceed the basic foundation allowance under section 20 for the current fiscal year, or, for a pupil described in this subsection who is counted in membership in a district that is a public school academy, times an amount equal to the amount per membership pupil under section 20(6) or, for a pupil described in this subsection who is counted in membership in the education achievement system, times an amount equal to the amount per membership pupil under section 20(7). The allocation to an intermediate district under this subsection shall be calculated in the same manner as for a district, using the foundation allowance under section 20 of the pupil's district of residence, not to exceed the basic foundation allowance under section 20 for the current fiscal year. This subsection applies to all of the following pupils:

- (a) Pupils described in section 53a.
- (b) Pupils counted in membership in an intermediate district who are not special education pupils and are served by the intermediate district in a juvenile detention or child caring facility.
- (c) Pupils with an emotional impairment counted in membership by an intermediate district and provided educational services by the department of community health.

(12) If it is determined that funds allocated under subsection (2) or (11) or under section 51c will not be expended, funds up to the amount necessary and available may be used to supplement the allocations under subsection (2) or (11) or under section 51c in order to fully fund those allocations. After payments under subsections (2) and (11) and section 51c, the remaining expenditures from the allocation in subsection (1) shall be made in the following order:

- (a) 100% of the reimbursement required under section 53a.
- (b) 100% of the reimbursement required under subsection (6).
- (c) 100% of the payment required under section 54.
- (d) 100% of the payment required under subsection (3).
- (e) 100% of the payments under section 56.

(13) The allocations under subsections (2), (3), and (11) shall be allocations to intermediate districts only and shall not be allocations to districts, but instead shall be calculations used only to determine the state payments under section 22b.

(14) If a public school academy enrolls pursuant to this section a pupil who resides outside of the intermediate district in which the public school academy is located and who is eligible for special education programs and services according to statute or rule, or who is a child with disabilities, as defined under the individuals with disabilities education act, Public Law 108-446, the provision of special education programs and services and the payment of the added costs of special education programs and services for the pupil are the responsibility of the district and intermediate district in which the pupil resides unless the enrolling district or intermediate district has a written agreement with the district or intermediate district in which the pupil resides or the public school academy for the purpose of providing the pupil with a free appropriate public education and the written agreement includes at least an agreement on the responsibility for the payment of the added costs of special education programs and services for the pupil.

(4) In order for the Michigan virtual university to receive any funds allocated under this section, the Michigan virtual school must maintain its accreditation status from recognized national and international accrediting entities.

(5) The Michigan virtual school may offer online course offerings in addition to those offered in the pilot study described in subsection (3), including, but not limited to, all of the following:

(8) The governor may appoint an advisory group for the center for online learning research and innovation established under subsection (2). The members of the advisory group shall serve at the pleasure of the governor and shall serve without compensation. The purpose of the advisory group is to make recommendations to the governor, the legislature, and the president and board of the Michigan virtual university that will accelerate innovation in this state's education system in a manner that will prepare elementary and secondary students to be career and college ready and that will promote the goal of increasing the percentage of citizens of this state with high-quality degrees and credentials to at least 60% by 2025.

Sec. 101. (1) To be eligible to receive state aid under this act, not later than the fifth Wednesday after the pupil membership count day and not later than the fifth Wednesday after the supplemental count day, each district superintendent shall submit to the center and the intermediate superintendent, in the form and manner prescribed by the center, the number of pupils enrolled and in regular daily attendance in the district as of the pupil membership count day and as of the supplemental count day, as applicable, for the current school year. In addition, a district maintaining school during the entire year, as provided under section 1561 of the revised school code, MCL 380.1561, shall submit to the center and the intermediate superintendent, in the form and manner prescribed by the center, the number of pupils enrolled and in regular daily attendance in the district for the current school year pursuant to rules promulgated by the superintendent. Not later than the seventh Wednesday after the pupil membership count day and not later than the sixth Wednesday after the supplemental count day, the district shall certify the data in a form and manner prescribed by the center and file the certified data with the intermediate superintendent. If a district fails to submit and certify the attendance data, as required under this subsection, the center shall notify the department and state aid due to be distributed under this article shall be withheld from the defaulting district immediately, beginning with the next payment after the failure and continuing with each payment until the district complies with this subsection. If a district does not comply with this subsection by the end of the fiscal year, the district forfeits the amount withheld. A person who willfully falsifies a figure or statement in the certified and sworn copy of enrollment shall be punished in the manner prescribed by section 161.

(2) To be eligible to receive state aid under this article, not later than the twenty-fourth Wednesday after the pupil membership count day and not later than the twenty-fourth Wednesday after the supplemental count day, an intermediate district shall submit to the center, in a form and manner prescribed by the center, the audited enrollment and attendance data for the pupils of its constituent districts and of the intermediate district. If an intermediate district fails to submit the audited data as required under this subsection, state aid due to be distributed under this article shall be withheld from the defaulting intermediate district immediately, beginning with the next payment after the failure and continuing with each payment until the intermediate district complies with this subsection. If an intermediate district does not comply with this subsection by the end of the fiscal year, the intermediate district forfeits the amount withheld.

(3) Except as otherwise provided in subsections (11) and (12), all of the following apply to the provision of pupil instruction:

(a) Except as otherwise provided in this section, each district shall provide at least 1,098 hours and, beginning in 2010-2011, the required minimum number of days of pupil instruction. For 2010-2011 and for 2011-2012, the required minimum number of days of pupil instruction is 165. Beginning in 2012-2013, the required minimum number of days of pupil instruction is 170. However, beginning in 2010-2011, a district shall not provide fewer days of pupil instruction than the district provided for 2009-2010. A district may apply for a waiver under subsection (9) from the requirements of this subdivision.

(b) Except as otherwise provided in this article, a district failing to comply with the required minimum hours and days of pupil instruction under this subsection shall forfeit from its total state aid allocation an amount determined by applying a ratio of the number of hours or days the district was in noncompliance in relation to the required minimum number of hours and days under this subsection. Not later than August 1, the board of each district shall certify to the department the number of hours and, beginning in 2010-2011, days of pupil instruction in the previous school year. If the district did not provide at least the required minimum number of hours and days of pupil instruction under this subsection, the deduction of state aid shall be made in the following fiscal year from the first payment of state school aid. A district is not subject to forfeiture of funds under this subsection for a fiscal year in which a forfeiture was already imposed under subsection (6).

(c) Hours or days lost because of strikes or teachers' conferences shall not be counted as hours or days of pupil instruction.

(d) If a collective bargaining agreement that provides a complete school calendar is in effect for employees of a district as of October 19, 2009, and if that school calendar is not in compliance with this subsection, then this subsection does not apply to that district until after the expiration of that collective bargaining agreement.

(e) Except as otherwise provided in subdivision (f), a district not having at least 75% of the district's membership in attendance on any day of pupil instruction shall receive state aid in that proportion of 1/180 that the actual percent of attendance bears to the specified percentage.

(f) At the request of a district that operates a department-approved alternative education program and that does not provide instruction for pupils in all of grades K to 12, the superintendent may grant a waiver from the requirements of subdivision (e). The waiver shall indicate that an eligible district is subject to the proration provisions of subdivision (e) only if the district does not have at least 50% of the district's membership in attendance on any day of pupil instruction. In order to be eligible for this waiver, a district must maintain records to substantiate its compliance with the following requirements:

(i) The district offers the minimum hours of pupil instruction as required under this section.

(ii) For each enrolled pupil, the district uses appropriate academic assessments to develop an individual education plan that leads to a high school diploma.

(iii) The district tests each pupil to determine academic progress at regular intervals and records the results of those tests in that pupil's individual education plan.

(g) All of the following apply to a waiver granted under subdivision (f):

(i) If the waiver is for a blended model of delivery, a waiver that is granted for the 2011-2012 fiscal year or a subsequent fiscal year remains in effect unless it is revoked by the superintendent.

(ii) If the waiver is for a 100% online model of delivery and the educational program for which the waiver is granted makes educational services available to pupils for a minimum of at least 1,098 hours during a school year and ensures that each pupil participates in the educational program for at least 1,098 hours during a school year, a waiver that is granted for the 2011-2012 fiscal year or a subsequent fiscal year remains in effect unless it is revoked by the superintendent.

(iii) A waiver that is not a waiver described in subparagraph (i) or (ii) is valid for 1 fiscal year and must be renewed annually to remain in effect.

(h) The superintendent shall promulgate rules for the implementation of this subsection.

(4) Except as otherwise provided in this subsection, the first 6 days or the equivalent number of hours for which pupil instruction is not provided because of conditions not within the control of school authorities, such as severe storms, fires, epidemics, utility power unavailability, water or sewer failure, or health conditions as defined by the city, county, or state health authorities, shall be counted as hours and days of pupil instruction. With the approval of the superintendent of public instruction, the department shall count as hours and days of pupil instruction for a fiscal year not more than 6 additional days or the equivalent number of additional hours for which pupil instruction is not provided in a district after April 1 of the applicable school year due to unusual and extenuating occurrences resulting from conditions not within the control of school authorities such as those conditions described in this subsection. Subsequent such hours or days shall not be counted as hours or days of pupil instruction.

(5) A district shall not forfeit part of its state aid appropriation because it adopts or has in existence an alternative scheduling program for pupils in kindergarten if the program provides at least the number of hours

required under subsection (3) for a full-time equated membership for a pupil in kindergarten as provided under section 6(4).

(6) In addition to any other penalty or forfeiture under this section, if at any time the department determines that 1 or more of the following has occurred in a district, the district shall forfeit in the current fiscal year beginning in the next payment to be calculated by the department a proportion of the funds due to the district under this article that is equal to the proportion below the required minimum number of hours and days of pupil instruction under subsection (3), as specified in the following:

(a) The district fails to operate its schools for at least the required minimum number of hours and days of pupil instruction under subsection (3) in a school year, including hours and days counted under subsection (4).

(b) The board of the district takes formal action not to operate its schools for at least the required minimum number of hours and days of pupil instruction under subsection (3) in a school year, including hours and days counted under subsection (4).

(7) In providing the minimum number of hours and days of pupil instruction required under subsection (3), a district shall use the following guidelines, and a district shall maintain records to substantiate its compliance with the following guidelines:

(a) Except as otherwise provided in this subsection, a pupil must be scheduled for at least the required minimum number of hours of instruction, excluding study halls, or at least the sum of 90 hours plus the required minimum number of hours of instruction, including up to 2 study halls.

(b) The time a pupil is assigned to any tutorial activity in a block schedule may be considered instructional time, unless that time is determined in an audit to be a study hall period.

(c) Except as otherwise provided in this subdivision, a pupil in grades 9 to 12 for whom a reduced schedule is determined to be in the individual pupil's best educational interest must be scheduled for a number of hours equal to at least 80% of the required minimum number of hours of pupil instruction to be considered a full-time equivalent pupil. A pupil in grades 9 to 12 who is scheduled in a 4-block schedule may receive a reduced schedule under this subsection if the pupil is scheduled for a number of hours equal to at least 75% of the required minimum number of hours of pupil instruction to be considered a full-time equivalent pupil.

(d) If a pupil in grades 9 to 12 who is enrolled in a cooperative education program or a special education pupil cannot receive the required minimum number of hours of pupil instruction solely because of travel time between instructional sites during the school day, that travel time, up to a maximum of 3 hours per school week, shall be considered to be pupil instruction time for the purpose of determining whether the pupil is receiving the required minimum number of hours of pupil instruction. However, if a district demonstrates to the satisfaction of the department that the travel time limitation under this subdivision would create undue costs or hardship to the district, the department may consider more travel time to be pupil instruction time for this purpose.

(e) In grades 7 through 12, instructional time that is part of a junior reserve officer training corps (JROTC) program shall be considered to be pupil instruction time regardless of whether the instructor is a certificated teacher if all of the following are met:

(i) The instructor has met all of the requirements established by the United States department of defense and the applicable branch of the armed services for serving as an instructor in the junior reserve officer training corps program.

(ii) The board of the district or intermediate district employing or assigning the instructor complies with the requirements of sections 1230 and 1230a of the revised school code, MCL 380.1230 and 380.1230a, with respect to the instructor to the same extent as if employing the instructor as a regular classroom teacher.

(8) Except as otherwise provided in subsections (11) and (12), the department shall apply the guidelines under subsection (7) in calculating the full-time equivalency of pupils.

(9) Upon application by the district for a particular fiscal year, the superintendent may waive for a district the minimum number of hours and days of pupil instruction requirement of subsection (3) for a department-approved alternative education program or another innovative program approved by the department, including a 4-day school week. If a district applies for and receives a waiver under this subsection and complies with the terms of the waiver, the district is not subject to forfeiture under this section for the specific program covered by the waiver. If the district does not comply with the terms of the waiver, the amount of the forfeiture shall be calculated based upon a comparison of the number of hours and days of pupil instruction actually provided to the minimum number of hours and days of pupil instruction required under subsection (3). Pupils enrolled in a department-approved alternative education program under this subsection shall be reported to the center in a form and manner determined by the center. All of the following apply to a waiver granted under this subsection:

(a) If the waiver is for a blended model of delivery, a waiver that is granted for the 2011-2012 fiscal year or a subsequent fiscal year remains in effect unless it is revoked by the superintendent.

(b) If the waiver is for a 100% online model of delivery and the educational program for which the waiver is granted makes educational services available to pupils for a minimum of at least 1,098 hours during a school year and ensures that each pupil participates in the educational program for at least 1,098 hours during a school year, a waiver that is granted for the 2011-2012 fiscal year or a subsequent fiscal year remains in effect unless it is revoked by the superintendent.

(c) A waiver that is not a waiver described in subdivision (a) or (b) is valid for 1 fiscal year and must be renewed annually to remain in effect.

(10) A district may count up to 38 hours of qualifying professional development for teachers as hours of pupil instruction. Professional development provided online is allowable and encouraged, as long as the instruction has been approved by the district. The department shall issue a list of approved online professional development providers, which shall include the Michigan virtual school. As used in this subsection, "qualifying professional development" means professional development that is focused on 1 or more of the following:

(a) Achieving or improving adequate yearly progress as defined under the no child left behind act of 2001, Public Law 107-110.

(b) Achieving accreditation or improving a school's accreditation status under section 1280 of the revised school code, MCL 380.1280.

(c) Achieving highly qualified teacher status as defined under the no child left behind act of 2001, Public Law 107-110.

(d) Integrating technology into classroom instruction.

(e) Maintaining teacher certification.

(11) Subsections (3) and (8) do not apply to a school of excellence that is a cyber school, as defined in section 551 of the revised school code, MCL 380.551, and is in compliance with section 553a of the revised school code, MCL 380.553a.

(12) Subsections (3) and (8) do not apply to eligible pupils enrolled in a dropout recovery program that meets the requirements of section 23a. As used in this subsection, "eligible pupil" means that term as defined in section 23a.

(13) Beginning in 2013, at least every 2 years the superintendent shall review the waiver standards set forth in the pupil accounting and auditing manuals to ensure that the waiver standards and waiver process continue to be appropriate and responsive to changing trends in online learning. The superintendent shall solicit and consider input from stakeholders as part of this review.

A district or intermediate district that has an existing deficit fund balance, that incurs a deficit fund balance in the most recently completed school fiscal year, or that adopts a current year budget that projects a deficit fund balance shall not be allotted or paid a further sum under this act until the district or intermediate district submits to the department for approval a budget for the current school fiscal year and a plan to eliminate the district's or intermediate district's deficit not later than the end of the second school fiscal year after the deficit was incurred or the budget projecting a deficit was adopted. Withheld state aid payments shall be released after the department approves the deficit reduction plan and ensures that the budget for the current school fiscal year is balanced. After the department approves a district's or intermediate district's deficit reduction plan, the district or intermediate district shall post the deficit elimination plan on the district's or intermediate district's website.

The department also shall submit quarterly interim reports concerning the progress made by districts and intermediate districts in reducing those deficits. On a quarterly basis, the superintendent of public instruction shall publicly present those reports to the appropriations subcommittees of the legislature responsible for K-12 education appropriations.

(3) The amount of the permissible deficit for each school fiscal year shall not exceed the amount of state aid reduced by an executive order during that school fiscal year.

(4) A district or intermediate district that has an existing deficit fund balance, that incurs a deficit fund balance in the most recently completed school fiscal year, or that adopts a current year budget that projects a deficit fund balance shall submit to the department a monthly monitoring report on revenue and expenditures in a form and manner prescribed by the department and shall post these reports on its website.

(5) If a district or intermediate district is not able to comply with the provisions of this section, the district or intermediate district shall submit to the department a plan to eliminate its deficit. Upon approval of the plan submitted, the superintendent of public instruction may continue allotment and payment of funds under this act, extend the period of time in which a district or intermediate district has to eliminate its deficit, and set special conditions that the district or intermediate district must meet during the period of the extension. After the department approves a district's or intermediate district's deficit reduction plan under this subsection, the district or intermediate district shall post the deficit elimination plan on the district's or intermediate district's website.

(6) For the purposes of this section, "deficit fund balance" means that term as defined in the Michigan public school accounting manual published by the department.

388.1704b Michigan merit examination.

Sec. 104b. (1) In order to receive state aid under this act, a district shall comply with this section and shall administer the Michigan merit examination to pupils in grade 11, and to pupils in grade 12 who did not take the complete Michigan merit examination in grade 11, as provided in this section.

(2) For the purposes of this section, the department of management and budget shall contract with 1 or more providers to develop, supply, and score the Michigan merit examination. The Michigan merit examination shall consist of all of the following:

(a) Assessment instruments that measure English language arts, mathematics, reading, and science and are used by colleges and universities in this state for entrance or placement purposes. This shall include a writing component in which the pupil produces an extended writing sample. The Michigan merit examination shall not require any other extended writing sample.

(b) One or more tests from 1 or more test developers that assess a pupil's ability to apply at least reading and mathematics skills in a manner that is intended to allow employers to use the results in making employment decisions. The department of management and budget and the superintendent shall ensure that any test or tests selected under this subdivision have all the components necessary to allow a pupil to be eligible to receive the results of a nationally recognized evaluation of workforce readiness if the pupil's test performance is adequate.

(c) A social studies component.

(d) Any other component that is necessary to obtain the approval of the United States department of education to use the Michigan merit examination for the purposes of the federal no child left behind act of 2001, Public Law 107-110.

(3) In addition to all other requirements of this section, all of the following apply to the Michigan merit examination:

(a) The department of management and budget and the superintendent shall ensure that any contractor used for scoring the Michigan merit examination supplies an individual report for each pupil that will identify for the pupil's parents and teachers whether the pupil met expectations or failed to meet expectations for each standard, to allow the pupil's parents and teachers to assess and remedy problems before the pupil moves to the next grade.

(b) The department of management and budget and the superintendent shall ensure that any contractor used for scoring, developing, or processing the Michigan merit examination meets quality management standards commonly used in the assessment industry, including at least meeting level 2 of the capability maturity model developed by the software engineering institute of Carnegie Mellon university for the first year the Michigan merit examination is offered to all grade 11 pupils and at least meeting level 3 of the capability maturity model for subsequent years.

(c) The department of management and budget and the superintendent shall ensure that any contract for scoring, administering, or developing the Michigan merit examination includes specific deadlines for all steps of the assessment process, including, but not limited to, deadlines for the correct testing materials to be supplied to schools and for the correct results to be returned to schools, and includes penalties for noncompliance with these deadlines.

(d) The superintendent shall ensure that the Michigan merit examination meets all of the following:

(i) Is designed to test pupils on grade level content expectations or course content expectations, as appropriate, in all subjects tested.

(ii) Complies with requirements of the no child left behind act of 2001, Public Law 107-110.

(iii) Is consistent with the code of fair testing practices in education prepared by the joint committee on testing practices of the American psychological association.

(iv) Is factually accurate. If the superintendent determines that a question is not factually accurate and should be excluded from scoring, the state board and the superintendent shall ensure that the question is excluded from scoring.

(4) A district shall include on each pupil's high school transcript all of the following:

(a) For each high school graduate who has completed the Michigan merit examination under this section, the pupil's scaled score on each subject area component of the Michigan merit examination.

(b) The number of school days the pupil was in attendance at school each school year during high school and the total number of school days in session for each of those school years.

(5) The superintendent shall work with the provider or providers of the Michigan merit examination to produce Michigan merit examination subject area scores for each pupil participating in the Michigan merit examination, including scaling and merging of test items for the different subject area components. The superintendent shall design and distribute to districts, intermediate districts, and nonpublic schools a simple and concise document that describes the scoring for each subject area and indicates the scaled score ranges for each subject area.

(6) The Michigan merit examination shall be administered each year after March 1 and before June 1 to pupils in grade 11. The superintendent shall ensure that the Michigan merit examination is scored and the scores are returned to pupils, their parents or legal guardians, and districts not later than the beginning of the pupil's first semester of grade 12. The returned scores shall indicate at least the pupil's scaled score for each subject area component and the range of scaled scores for each subject area. In reporting the scores to pupils, parents, and schools, the superintendent shall provide standards-specific, meaningful, and timely feedback on the pupil's performance on the Michigan merit examination.

(7) A district shall administer the complete Michigan merit examination to a pupil only once and shall not administer the complete Michigan merit examination to the same pupil more than once. If a pupil does not take the complete Michigan merit examination in grade 11, the district shall administer the complete Michigan merit examination to the pupil in grade 12. If a pupil chooses to retake the college entrance examination component of the Michigan merit examination, as described in subsection (2)(a), the pupil may do so through the provider of the college entrance examination component and the cost of the retake is the responsibility of the pupil unless all of the following are met:

(a) The pupil has taken the complete Michigan merit examination.

(b) The pupil did not qualify for a Michigan promise grant under section 6 of the Michigan promise grant act, 2006 PA 479, MCL 390.1626, based on the pupil's performance on the complete Michigan merit examination.

(c) The pupil meets the income eligibility criteria for free breakfast, lunch, or milk, as determined under the Richard B. Russell national school lunch act, 42 USC 1751 to 1769i.

(d) The pupil has applied to the provider of the college entrance examination component for a scholarship or fee waiver to cover the cost of the retake and that application has been denied.

(e) After taking the complete Michigan merit examination, the pupil has not already received a free retake of the college entrance examination component paid for either by this state or through a scholarship or fee waiver by the provider.

(8) The superintendent shall ensure that the length of the Michigan merit examination and the combined total time necessary to administer all of the components of the Michigan merit examination are the shortest possible that will still maintain the degree of reliability and validity of the Michigan merit examination results determined necessary by the superintendent. The superintendent shall ensure that the maximum total combined length of time that schools are required to set aside for pupils to answer all test questions on the Michigan merit examination does not exceed 8 hours if the superintendent determines that sufficient alignment to applicable Michigan merit curriculum content standards can be achieved within that time limit.

(9) A district shall provide accommodations to a pupil with disabilities for the Michigan merit examination, as provided under section 504 of title V of the rehabilitation act of 1973, 29 USC 794; subtitle A of title II of the Americans with disabilities act of 1990, 42 USC 12131 to 12134; the individuals with disabilities education act amendments of 1997, Public Law 105-17; and the implementing regulations for those statutes. The provider or providers of the Michigan merit examination and the superintendent shall mutually agree upon the accommodations to be provided under this subsection.

(10) To the greatest extent possible, the Michigan merit examination shall be based on grade level content expectations or course content expectations, as appropriate. Not later than July 1, 2008, the department shall identify specific grade level content expectations to be taught before and after the middle of grade 11, so that teachers will know what content will be covered within the Michigan merit examination.

(11) A child who is a student in a nonpublic school or home school may take the Michigan merit examination under this section. To take the Michigan merit examination, a child who is a student in a home school shall contact the district in which the child resides, and that district shall administer the Michigan merit examination, or the child may take the Michigan merit examination at a nonpublic school if allowed by the nonpublic school. Upon request from a nonpublic school, the superintendent shall direct the provider or

providers to supply the Michigan merit examination to the nonpublic school and the nonpublic school may administer the Michigan merit examination. If a district administers the Michigan merit examination under this subsection to a child who is not enrolled in the district, the scores for that child are not considered for any purpose to be scores of a pupil of the district.

(12) In contracting under subsection (2), the department of management and budget shall consider a contractor that provides electronically-scored essays with the ability to score constructed response feedback in multiple languages and provide ongoing instruction and feedback.

(13) The purpose of the Michigan merit examination is to assess pupil performance in mathematics, science, social studies, and English language arts for the purpose of improving academic achievement and establishing a statewide standard of competency. The assessment under this section provides a common measure of data that will contribute to the improvement of Michigan schools' curriculum and instruction by encouraging alignment with Michigan's curriculum framework standards and promotes pupil participation in higher level mathematics, science, social studies, and English language arts courses. These standards are based upon the expectations of what pupils should learn through high school and are aligned with national standards.

(14) As used in this section:

(a) "English language arts" means reading and writing.

(b) "Social studies" means United States history, world history, world geography, economics, and American government.

Sec. 105. (1) In order to avoid a penalty under this section, and in order to count a nonresident pupil residing within the same intermediate district in membership without the approval of the pupil's district of residence, a district shall comply with this section.

(2) Except as otherwise provided in this section, a district shall determine whether or not it will accept applications for enrollment by nonresident applicants residing within the same intermediate district for the next school year. If the district determines to accept applications for enrollment of a number of nonresidents, beyond those entitled to preference under this section, the district shall use the following procedures for accepting applications from and enrolling nonresidents:

(a) The district shall publish the grades, schools, and special programs, if any, for which enrollment may be available to, and for which applications will be accepted from, nonresident applicants residing within the same intermediate district.

(b) If the district has a limited number of positions available for nonresidents residing within the same intermediate district in a grade, school, or program, all of the following apply to accepting applications for and enrollment of nonresidents in that grade, school, or program:

(i) The district shall do all of the following not later than the second Friday in August:

(B) During the application period under sub-subparagraph (A), accept applications from nonresidents residing within the same intermediate district for enrollment in that grade, school, or program.

(C) Within 15 calendar days after the end of the application period under sub-subparagraph (A), using the procedures and preferences required under this section, determine which nonresident applicants will be allowed to enroll in that grade, school, or program, using the random draw system required under subsection (14) as necessary, and notify the parent or legal guardian of each nonresident applicant of whether or not the applicant may enroll in the district. The notification to parents or legal guardians of nonresident applicants accepted for enrollment shall contain notification of the date by which the applicant must enroll in the district and procedures for enrollment. The date for enrollment shall be no later than the end of the first week of school.

(ii) Beginning on the third Monday in August and not later than the end of the first week of school, if any positions become available in a grade, school, or program due to accepted applicants failing to enroll or to

more positions being added, the district may enroll nonresident applicants from the waiting list maintained under subsection (14), offering enrollment in the order that applicants appear on the waiting list. If there are still positions available after enrolling all applicants from the waiting list who desire to enroll, the district may not fill those positions until the second semester or trimester enrollment under subsection (3), as provided under that subsection, or until the next school year.

(c) For a grade, school, or program that has an unlimited number of positions available for nonresidents residing within the same intermediate district, all of the following apply to enrollment of nonresidents in that grade, school, or program:

(i) The district may accept applications for enrollment in that grade, school, or program, and may enroll nonresidents residing within the same intermediate district in that grade, school, or program, until the end of the first week of school. The district shall provide notice to the general public of the place and manner for submitting applications and, if the district has a limited application period, the notice shall include the dates of the application period. The application period shall be at least a 15-calendar-day period.

The date for enrollment shall be no later than the end of the first week of school.

(3) If a district determines during the first semester or trimester of a school year that it has positions available for enrollment of a number of nonresidents residing within the same intermediate district, beyond those entitled to preference under this section, for the second semester or trimester of the school year, the district may accept applications from and enroll nonresidents residing within the same intermediate district for the second semester or trimester using the following procedures:

(a) Not later than 2 weeks before the end of the first semester or trimester, the district shall publish the grades, schools, and special programs, if any, for which enrollment for the second semester or trimester may be available to, and for which applications will be accepted from, nonresident applicants residing within the same intermediate district.

(5) A district offering to enroll nonresident applicants residing within the same intermediate district may limit the number of nonresident pupils it accepts in a grade, school, or program, at its discretion, and may use that limit as the reason for refusal to enroll an applicant.

(6) A nonresident applicant residing within the same intermediate district shall not be granted or refused enrollment based on intellectual, academic, artistic, or other ability, talent, or accomplishment, or lack thereof, or based on a mental or physical disability, except that a district may refuse to admit a nonresident applicant if the applicant does not meet the same criteria, other than residence, that an applicant who is a resident of the district must meet to be accepted for enrollment in a grade or a specialized, magnet, or intra-district choice school or program to which the applicant applies.

(7) A nonresident applicant residing within the same intermediate district shall not be granted or refused enrollment based on age, except that a district may refuse to admit a nonresident applicant applying for a program that is not appropriate for the age of the applicant.

(8) A nonresident applicant residing within the same intermediate district shall not be granted or refused enrollment based upon religion, race, color, national origin, sex, height, weight, marital status, or athletic ability, or, generally, in violation of any state or federal law prohibiting discrimination.

(9) Subject to subsection (10), a district may refuse to enroll a nonresident applicant if any of the following are met:

(10) If a district has counted a pupil in membership on either the pupil membership count day or the supplemental count day, the district shall not refuse to enroll or refuse to continue to enroll that pupil for a reason specified in subsection (9). This subsection does not prohibit a district from expelling a pupil described in this subsection for disciplinary reasons.

(11) A district shall continue to allow a pupil who was enrolled in and attended the district under this section in the school year or semester or trimester immediately preceding the school year or semester or trimester in question to enroll in the district until the pupil graduates from high school. This subsection does not prohibit a district from expelling a pupil described in this subsection for disciplinary reasons.

(12) A district shall give preference for enrollment under this section over all other nonresident applicants residing within the same intermediate district to other school-age children who reside in the same household as a pupil described in subsection (11).

(13) If a nonresident pupil was enrolled in and attending school in a district as a nonresident pupil in the 1995-96 school year and continues to be enrolled continuously each school year in that district, the district shall allow that nonresident pupil to continue to enroll in and attend school in the district until high school graduation, without requiring the nonresident pupil to apply for enrollment under this section. This subsection does not prohibit a district from expelling a pupil described in this subsection for disciplinary reasons.

(14) If the number of qualified nonresident applicants eligible for acceptance in a school, grade, or program does not exceed the positions available for nonresident pupils in the school, grade, or program, the school district shall accept for enrollment all of the qualified nonresident applicants eligible for acceptance. If the number of qualified nonresident applicants residing within the same intermediate district eligible for acceptance exceeds the positions available in a grade, school, or program in a district for nonresident pupils, the district shall use a random draw system, subject to the need to abide by state and federal antidiscrimination laws and court orders and subject to preferences allowed by this section. The district shall develop and maintain a waiting list based on the order in which nonresident applicants were drawn under this random draw system.

(15) If a district, or the nonresident applicant, requests the district in which a nonresident applicant resides to supply information needed by the district for evaluating the applicant's application for enrollment or for enrolling the applicant, the district of residence shall provide that information on a timely basis.

(16) If a district is subject to a court-ordered desegregation plan, and if the court issues an order prohibiting pupils residing in that district from enrolling in another district or prohibiting pupils residing in another district from enrolling in that district, this section is subject to the court order.

(17) This section does not require a district to provide transportation for a nonresident pupil enrolled in the district under this section or for a resident pupil enrolled in another district under this section. However, at the time a nonresident pupil enrolls in the district, a district shall provide to the pupil's parent or legal guardian information on available transportation to and from the school in which the pupil enrolls.

(18) A district may participate in a cooperative education program with 1 or more other districts or intermediate districts whether or not the district enrolls any nonresidents pursuant to this section.

(19) A district that, pursuant to this section, enrolls a nonresident pupil who is eligible for special education programs and services according to statute or rule, or who is a child with disabilities, as defined under the individuals with disabilities education act, Public Law 108-446, shall be considered to be the resident district of the pupil for the purpose of providing the pupil with a free appropriate public education. Consistent with state and federal law, that district is responsible for developing and implementing an individualized education plan annually for a nonresident pupil described in this subsection.

(20) If a district does not comply with this section, the district forfeits 5% of the total state school aid allocation to the district under this act.

(21) Upon application by a district, the superintendent may grant a waiver for the district from a specific requirement under this section for not more than 1 year.

History: Add. 1997, Act 24, Imd. Eff. June 16, 1997;—Am. 2000, Act 297, Imd. Eff. July 26, 2000.

388.1705c Enrollment by nonresident applicants residing in district located in a contiguous intermediate district.

Sec. 105c. (1) In order to avoid a penalty under this section, and in order to count a nonresident pupil residing in a district located in a contiguous intermediate district in membership without the approval of the pupil's district of residence, a district shall comply with this section.

(2) Except as otherwise provided in this section, a district shall determine whether or not it will accept applications for enrollment by nonresident applicants residing in a district located in a contiguous intermediate district for the next school year. If the district determines to accept applications for enrollment of a number of nonresidents under this section, beyond those entitled to preference under this section, the district shall use the following procedures for accepting applications from and enrolling nonresidents under this section:

(a) The district shall publish the grades, schools, and special programs, if any, for which enrollment may be available to, and for which applications will be accepted from, nonresident applicants residing in a district located in a contiguous intermediate district.

(b) If the district has a limited number of positions available for nonresidents residing in a district located in a contiguous intermediate district in a grade, school, or program, all of the following apply to accepting applications for and enrollment of nonresidents under this section in that grade, school, or program:

(i) The district shall do all of the following not later than the second Friday in August:

(A) Provide notice to the general public that applications will be taken for a period of at least 15 calendar days but not more than 30 calendar days from nonresidents residing in a district located in a contiguous intermediate district for enrollment in that grade, school, or program. The notice shall identify the dates of the application period and the place and manner for submitting applications.

(B) During the application period under sub-subparagraph (A), accept applications from nonresidents residing in a district located in a contiguous intermediate district for enrollment in that grade, school, or program.

(C) Within 15 calendar days after the end of the application period under sub-subparagraph (A), using the procedures and preferences required under this section, determine which nonresident applicants will be allowed to enroll under this section in that grade, school, or program, using the random draw system required under subsection (14) as necessary, and notify the parent or legal guardian of each nonresident applicant of whether or not the applicant may enroll in the district. The notification to parents or legal guardians of nonresident applicants accepted for enrollment under this section shall contain notification of the date by which the applicant must enroll in the district and procedures for enrollment. The date for enrollment shall be no later than the end of the first week of school.

(ii) Beginning on the third Monday in August and not later than the end of the first week of school, if any positions become available in a grade, school, or program due to accepted applicants failing to enroll or to more positions being added, the district may enroll nonresident applicants from the waiting list maintained under subsection (14), offering enrollment in the order that applicants appear on the waiting list. If there are still positions available after enrolling all applicants from the waiting list who desire to enroll, the district may not fill those positions until the second semester or trimester enrollment under subsection (3), as provided under that subsection, or until the next school year.

(c) For a grade, school, or program that has an unlimited number of positions available for nonresidents

residing in a district located in a contiguous intermediate district, all of the following apply to enrollment of nonresidents in that grade, school, or program under this section:

(i) The district may accept applications for enrollment in that grade, school, or program, and may enroll nonresidents residing in a district located in a contiguous intermediate district in that grade, school, or program, until the end of the first week of school. The district shall provide notice to the general public of the place and manner for submitting applications and, if the district has a limited application period, the notice shall include the dates of the application period. The application period shall be at least a 15-calendar-day period.

(ii) Not later than the end of the first week of school, the district shall notify the parent or legal guardian of each nonresident applicant who is accepted for enrollment under this section that the applicant has been accepted for enrollment in the grade, school, or program and of the date by which the applicant must enroll in the district and the procedures for enrollment. The date for enrollment shall be no later than the end of the first week of school.

(3) If a district determines during the first semester or trimester of a school year that it has positions available for enrollment of a number of nonresidents residing in a district located in a contiguous intermediate district, beyond those entitled to preference under this section, for the second semester or trimester of the school year, the district may accept applications from and enroll nonresidents residing in a district located in a contiguous intermediate district for the second semester or trimester using the following procedures:

(a) Not later than 2 weeks before the end of the first semester or trimester, the district shall publish the grades, schools, and special programs, if any, for which enrollment for the second semester or trimester may be available to, and for which applications will be accepted from, nonresident applicants residing in a district located in a contiguous intermediate district.

(b) During the last 2 weeks of the first semester or trimester, the district shall accept applications from nonresidents residing in a district located in a contiguous intermediate district for enrollment for the second semester or trimester in the available grades, schools, and programs.

(c) By the beginning of the second semester or trimester, using the procedures and preferences required under this section, the district shall determine which nonresident applicants will be allowed to enroll under this section in the district for the second semester or trimester and notify the parent or legal guardian of each nonresident applicant residing in a district located in a contiguous intermediate district of whether or not the applicant may enroll in the district. The notification to parents or legal guardians of nonresident applicants accepted for enrollment shall contain notification of the date by which the applicant must enroll in the district and procedures for enrollment. The date for enrollment shall be no later than the end of the first week of school.

(4) If deadlines similar to those described in subsection (2) or (3) have been established in an intermediate district, and if those deadlines are not later than the deadlines under subsection (2) or (3), the districts within the intermediate district may use those deadlines.

(5) A district offering to enroll nonresident applicants residing in a district located in a contiguous intermediate district may limit the number of those nonresident pupils it accepts in a grade, school, or program, at its discretion, and may use that limit as the reason for refusal to enroll an applicant under this section.

(6) A nonresident applicant residing in a district located in a contiguous intermediate district shall not be granted or refused enrollment based on intellectual, academic, artistic, or other ability, talent, or accomplishment, or lack thereof, or based on a mental or physical disability, except that a district may refuse to admit a nonresident applicant under this section if the applicant does not meet the same criteria, other than residence, that an applicant who is a resident of the district must meet to be accepted for enrollment in a grade or a specialized, magnet, or intra-district choice school or program to which the applicant applies.

(7) A nonresident applicant residing in a district located in a contiguous intermediate district shall not be granted or refused enrollment under this section based on age, except that a district may refuse to admit a nonresident applicant applying for a program that is not appropriate for the age of the applicant.

(8) A nonresident applicant residing in a district located in a contiguous intermediate district shall not be granted or refused enrollment under this section based upon religion, race, color, national origin, sex, height, weight, marital status, or athletic ability, or, generally, in violation of any state or federal law prohibiting discrimination.

(9) Subject to subsection (10), a district may refuse to enroll a nonresident applicant under this section if any of the following are met:

(a) The applicant is, or has been within the preceding 2 years, suspended from another school.

(b) The applicant, at any time before enrolling under this section, has been expelled from another school.

(c) The applicant, at any time before enrolling under this section, has been convicted of a felony.

(10) If a district has counted a pupil in membership on either the pupil membership count day or the supplemental count day, the district shall not refuse to enroll or refuse to continue to enroll that pupil for a reason specified in subsection (9). This subsection does not prohibit a district from expelling a pupil described in this subsection for disciplinary reasons.

(11) A district shall continue to allow a pupil who was enrolled in and attended the district under this section in the school year or semester or trimester immediately preceding the school year or semester or trimester in question to enroll in the district until the pupil graduates from high school. This subsection does not prohibit a district from expelling a pupil described in this subsection for disciplinary reasons.

(12) A district shall give preference for enrollment under this section over all other nonresident applicants residing in a district located in a contiguous intermediate district to other school-age children who reside in the same household as a pupil described in subsection (11).

(13) If a nonresident pupil was enrolled in and attending school in a district as a nonresident pupil in the 1995-96 school year and continues to be enrolled continuously each school year in that district, the district shall allow that nonresident pupil to continue to enroll in and attend school in the district until high school graduation, without requiring the nonresident pupil to apply for enrollment under this section. This subsection does not prohibit a district from expelling a pupil described in this subsection for disciplinary reasons.

(14) If the number of qualified nonresident applicants eligible for acceptance under this section in a school, grade, or program does not exceed the positions available for nonresident pupils under this section in the school, grade, or program, the school district shall accept for enrollment all of the qualified nonresident applicants eligible for acceptance. If the number of qualified nonresident applicants residing in a district located in a contiguous intermediate district eligible for acceptance under this section exceeds the positions available in a grade, school, or program in a district for nonresident pupils, the district shall use a random draw system, subject to the need to abide by state and federal antidiscrimination laws and court orders and subject to preferences allowed by this section. The district shall develop and maintain a waiting list based on the order in which nonresident applicants were drawn under this random draw system.

(15) If a district, or the nonresident applicant, requests the district in which a nonresident applicant resides to supply information needed by the district for evaluating the applicant's application for enrollment or for enrolling the applicant under this section, the district of residence shall provide that information on a timely basis.

(16) If a district is subject to a court-ordered desegregation plan, and if the court issues an order prohibiting pupils residing in that district from enrolling in another district or prohibiting pupils residing in another district from enrolling in that district, this section is subject to the court order.

(17) This section does not require a district to provide transportation for a nonresident pupil enrolled in the district under this section or for a resident pupil enrolled in another district under this section. However, at the time a nonresident pupil enrolls in the district, a district shall provide to the pupil's parent or legal guardian information on available transportation to and from the school in which the pupil enrolls.

(18) A district may participate in a cooperative education program with 1 or more other districts or intermediate districts whether or not the district enrolls any nonresidents pursuant to this section.

(19) In order for a district or intermediate district to enroll pursuant to this section a nonresident pupil who resides in a district located in a contiguous intermediate district and who is eligible for special education programs and services according to statute or rule, or who is a child with disabilities, as defined under the individuals with disabilities education act, Public Law 108-446, the enrolling district shall have a written agreement with the resident district of the pupil for the purpose of providing the pupil with a free appropriate public education. The written agreement shall include, but is not limited to, an agreement on the responsibility for the payment of the added costs of special education programs and services for the pupil. The written agreement shall address how the agreement shall be amended in the event of significant changes in the costs or level of special education programs or services required by the pupil.

(20) If a district does not comply with this section, the district forfeits 5% of the total state school aid allocation to the district under this act.

(21) Upon application by a district, the superintendent may grant a waiver for the district from a specific requirement under this section for not more than 1 year.

(22) This section is repealed if the final decision of a court of competent jurisdiction holds that any portion of this section is unconstitutional, ineffective, invalid, or in violation of federal law.

(23) As used in this section, "district located in a contiguous intermediate district" means a district located in an intermediate district that is contiguous to the intermediate district in which a pupil's district of residence is located.

(a) That the district or intermediate district does not provide any of the instruction to a pupil who is less than 18 years of age unless the district or intermediate district notifies the pupil's parent or legal guardian in advance of the instruction and the content of the instruction, gives the pupil's parent or legal guardian a prior opportunity to review the materials to be used in the instruction, allows the pupil's parent or legal guardian to observe the instruction, and notifies the pupil's parent or legal guardian in advance of his or her rights to observe the instruction and to have the pupil excused from the instruction.

(2) If a parent or legal guardian of a pupil enrolled in a district or intermediate district believes that the district or intermediate district has violated this section or section 1169, 1506, or 1507 of the revised school code, MCL 380.1169, 380.1506, and 380.1507, he or she may file a complaint with the superintendent or chief administrator of the district or intermediate district in which the pupil is enrolled. If the investigation reveals that 1 or more violations have occurred, the written report shall contain a description of each violation and of corrective action the district or intermediate district will take to correct the situation to ensure that there is no further violation. The district or intermediate district shall take the corrective action described in the written report within 30 days after the date of the written report.

(3) If a parent who has filed a complaint with a district under subsection (2) believes that the district is still not in compliance with law based on the findings made by the superintendent or chief administrator of the district, the parent may appeal the findings to the intermediate district in which the district is located. If there is an appeal to an intermediate district under this subsection, the intermediate superintendent of the intermediate district shall investigate the complaint and, within 30 days after the date of the appeal, provide a written report of his or her findings to the parent or legal guardian who filed the appeal and to the superintendent of public instruction. If the investigation by the intermediate superintendent reveals that 1 or more violations have occurred, the intermediate superintendent in consultation with the local district shall develop a plan for corrective action for the district to take to correct the situation to ensure that there is no further violation, and shall include this plan for corrective action with the written report provided to the parent or legal guardian and the superintendent of public instruction. The district shall take the corrective action described in the plan within 30 days after the date of the written report.

The district or intermediate district shall take the corrective action described in the plan within 30 days after the date of the written report.

(b) In addition to withholding the percentage of state school aid forfeited by the district or intermediate district under subsection (5), the department may assess a fee to the district or intermediate district that committed the violation in an amount not to exceed the actual cost to the department of conducting the investigation and making the reports required under this subsection.

(5) If an investigation conducted by the department under subsection (4) reveals that a district or intermediate district has committed 1 or more violations of this section or section 1169, 1506, or 1507 of the revised school code, MCL 380.1169, 380.1506, and 380.1507, the district or intermediate district shall forfeit

an amount equal to 1% of its total state school aid allocation under this act.

(6) The department, with the approval of the superintendent of public instruction, shall establish a reasonable process for a complainant to appeal to the department under subsection (4). The process shall not place an undue burden on the complainant, the district or intermediate district, or the department.

(7) The department shall track the number of complaints and appeals it receives under this section for the 2004-2005 school year and, not later than the end of that school year, shall submit a report to the standing committees and appropriations subcommittees of the legislature having jurisdiction over education legislation and state school aid that details the number and nature of those complaints and appeals and the cost to the department of handling them.

388.1766b Minor enrolled in nonpublic school or home school; dual enrollment; state school aid; requirements; "eligible other district" defined; minor as part-time pupil; reply by district.

Sec. 166b. (1) This act does not prohibit a parent or legal guardian of a minor who is enrolled in any of grades 1 to 12 in a nonpublic school or who is being home-schooled from also enrolling the minor in a district, public school academy, or intermediate district in any curricular offering that is provided by the district, public school academy, or intermediate district at a public school site and is available to pupils in the minor's grade level or age group, subject to compliance with the same requirements that apply to a full-time pupil's participation in the offering. However, state school aid shall be provided under this act for a minor enrolled as described in this subsection only for curricular offerings that are offered to full-time pupils in the minor's grade level or age group during regularly scheduled school hours.

(2) This act does not prohibit a parent or legal guardian of a minor who is enrolled in any of grades 1 to 12 in a nonpublic school or who resides within the district and is being home-schooled from also enrolling the minor in the district in a curricular offering being provided by the district at the nonpublic school site. However, state school aid shall be provided under this act for a minor enrolled as described in this subsection only if all of the following apply:

(a) Either of the following:

(i) The nonpublic school site is located, or the nonpublic students are educated, within the geographic boundaries of the district.

(ii) If the nonpublic school has submitted a written request to the district in which the nonpublic school is located for the district to provide certain instruction under this subsection for a school year and the district does not agree to provide some or all of that instruction by May 1 immediately preceding that school year or, if the request is submitted after March 1 immediately preceding that school year, within 60 days after the nonpublic school submits the request, the instruction is instead provided by an eligible other district. This subparagraph does not require a nonpublic school to submit more than 1 request to the district in which the nonpublic school is located for that district to provide instruction under this subsection, and does not require a nonpublic school to submit an additional request to the district in which the nonpublic school is located for that district to provide additional instruction under this subsection beyond the instruction requested in the original request, before having the instruction provided by an eligible other district. A public school academy that is located in the district in which the nonpublic school is located or in an other eligible district also may provide instruction under this subparagraph under the same conditions as an eligible other district. As used in this subparagraph, "eligible other district" means a district that is located in the same intermediate district as the district in which the nonpublic school is located or is located in an intermediate district that is contiguous to that intermediate district.

(b) The nonpublic school is registered with the department as a nonpublic school and meets all state reporting requirements for nonpublic schools.

(c) The instruction is scheduled to occur during the regular school day.

(d) The instruction is provided directly by a certified teacher at the district or public school academy or at an intermediate district.

(e) The curricular offering is also available to full-time pupils in the minor's grade level or age group in the district or public school academy during the regular school day at a public school site.

(f) The curricular offering is restricted to nonessential elective courses for pupils in grades 1 to 12.

(3) A minor enrolled as described in this section is a part-time pupil for purposes of state school aid under this act.

(4) A district that receives a written request to provide instruction under subsection (2) shall reply to the request in writing by May 1 immediately preceding the applicable school year or, if the request is made after

March 1 immediately preceding that school year, within 60 days after the nonpublic school submits the request. The written reply shall specify whether the district agrees to provide or does not agree to provide the instruction for each portion of instruction included in the request.

(2) Pursuant to section 6 of 1964 PA 208, MCL 390.976, the department of treasury shall determine an actual maximum state competitive scholarship award per student, which shall be not less than \$575.00, that ensures that the aggregate payments for the state competitive scholarship program do not exceed the appropriation contained in section 236 for the state competitive scholarship program. If the department determines that insufficient funds are available to establish a maximum award amount equal to at least \$575.00, the department shall immediately report to the house and senate appropriations subcommittees on higher education, the house and senate fiscal agencies, and the state budget director regarding the estimated amount of additional funds necessary to establish a \$575.00 maximum award amount.

(5) If the department of treasury increases the maximum award per eligible student from that provided in the previous fiscal year, it shall not have the effect of reducing the number of eligible students receiving awards in relation to the total number of eligible applicants. Any increase in the maximum grant shall be proportional for all eligible students receiving awards.

If the department determines that insufficient funds are available to establish a maximum award amount equal to at least \$1,512.00, the department shall immediately report to the house and senate appropriations subcommittees on higher education, the house and senate fiscal agencies, and the state budget director regarding the estimated amount of additional funds necessary to establish a \$1,512.00 maximum award amount. education, the house and senate fiscal agencies, and the state budget director regarding the maximum award amount established and the projected amount of any projected year-end appropriation balance based on that maximum award amount. By December 15, 2012, and again by February 18, 2013, the department shall analyze the status of award commitments, shall make any necessary adjustments, and shall confirm that those award commitments will not exceed the appropriation contained in section 236 for the tuition grant program. The determination and actions shall be reported to the state budget director and the house and senate fiscal agencies no later than the final day of February of each year. If award adjustments are necessary, the students shall be notified of the adjustment by March 4 of each year.

The use of these unexpended fiscal year 2011-2012 funds shall terminate at the end of the 2012-2013 fiscal year.

(5) The department of treasury shall continue a proportional tuition grant maximum award level for recipients enrolled less than full-time in a given semester or term.

(6) If the department of treasury increases the maximum award per eligible student from that provided in the previous fiscal year, it shall not have the effect of reducing the number of eligible students receiving awards in relation to the total number of eligible applicants. Any increase in the maximum grant shall be proportional for all eligible students receiving awards for fiscal year 2012-2013.

(7) The department of treasury shall not award more than \$3,000,000.00 in tuition grants to eligible students enrolled in the same independent nonprofit college or university in this state. Any decrease in the maximum grant shall be proportional for all eligible students enrolled in that college or university, as determined by the department.

388.1865 Public university tuition restraint incentives; payment conditions; definitions; determination of allocation; uniform reporting requirements; additional information.

Sec. 265. (1) Payments from the amount appropriated in section 236(3) for public university tuition restraint incentives shall only be made to a public university that certifies to the state budget director by August 31, 2012 that its board did not adopt an increase in tuition and fee rates for resident undergraduate students after September 1, 2011 for the 2011-2012 academic year and that its board will not adopt an increase in tuition and fee rates for resident undergraduate students for the 2012-2013 academic year that is greater than 4.0%. As used in this subsection and subsection (2):

(a) Subject to subdivision (c), "fee" means any board-authorized fee that will be paid by more than 1/2 of all resident undergraduate students at least once during their enrollment at a public university. A university increasing a fee that applies to a specific subset of students or courses shall provide sufficient information to prove that the increase applied to that subset will not cause the increase in the average amount of board-authorized total tuition and fees paid by resident undergraduate students in the 2012-2013 academic year to exceed the limit established in this subsection.

(b) "Tuition and fee rate" means the average of full-time rates for all undergraduate classes, based on an average of the rates authorized by the university board and actually charged to students, deducting any uniformly-rebated or refunded amounts, for the 2 semesters with the highest levels of full-time equated resident undergraduate enrollment during the academic year.

(c) For purposes of subdivision (a), for a public university that compels resident undergraduate students to be covered by health insurance as a condition to enroll at the university, "fee" includes the annual amount a student is charged for coverage by the university-affiliated group health insurance policy if he or she does not provide proof that he or she is otherwise covered by health insurance. This subdivision does not apply to limited subsets of resident undergraduate students to be covered by health insurance for specific reasons other than general enrollment at the university.

(2) For purposes of section 236(3), each public university's allocation for tuition restraint incentive shall be determined as follows:

(a) Calculate an adjustment for each university by subtracting each university's reported percent change in tuition and fee rates for academic year 2012-2013 from 4.1%. If the result of the calculation in this subdivision is less than 0.1%, the university is not qualified to receive an allocation under this section. All calculations under this subdivision shall be rounded to the first decimal place.

(b) For each qualified university, divide the university's adjustment as calculated under subdivision (a) by the sum of all adjustments for qualifying universities under subdivision (a) and then multiply the resulting calculation for each university by the total amount available for tuition restraint incentive funding, rounded to

the nearest hundred dollars.

(3) The state budget director shall implement uniform reporting requirements to ensure that a public university receiving an appropriation under section 236(3) has satisfied the tuition restraint requirements of this section. The state budget director shall have the sole authority to determine if a public university has met the requirements of this section. Information reported by a public university to the state budget director under this subsection shall also be reported to the house and senate appropriations subcommittees on higher education and the house and senate fiscal agencies.

(4) In conjunction with the uniform reporting requirements established under subsection (3), each public university shall also report the following information to the house and senate appropriations subcommittees on higher education, the house and senate fiscal agencies, and the state budget director by August 31, 2012:

(a) Actual or estimated fiscal year 2011-2012 and budgeted fiscal year 2012-2013 total general fund tuition and fee revenue.

(b) Actual or estimated fiscal year 2011-2012 and budgeted fiscal year 2012-2013 total general fund revenue.

(c) Actual or estimated fiscal year 2011-2012 and budgeted fiscal year 2012-2013 general fund expenditures for student financial aid.

(d) Actual or estimated fiscal year 2011-2012 and budgeted fiscal year 2012-2013 total general fund expenditures.

(e) Actual or estimated fiscal year 2011-2012 and budgeted fiscal year 2012-2013 total fiscal year equated student enrollment.

ARTICLE IV GENERAL PROVISIONS

388.1896 Excess funds; proration.

Sec. 296. (1) If the maximum amount appropriated under this act from the state school aid fund for a fiscal year exceeds the amount necessary to fully fund allocations under this act from the state school aid fund, that excess amount shall not be expended in that state fiscal year and shall not lapse to the general fund, but instead shall be deposited into the school aid stabilization fund created in section 11a.

(2) If the total maximum amount appropriated under all articles of this act from the state school aid fund and the school aid stabilization fund exceeds the amount available for expenditure from the state school aid fund for that fiscal year, payments under sections 11f, 11g, 11j, 22a, 26a, 26b, 31d, 31f, 51a(2), 51a(12), 51c, 53a, 56, and 152a shall be made in full. In addition, for districts beginning operations after 1994-95 that qualify for payments under section 22b, payments under section 22b shall be made so that the qualifying districts receive the lesser of an amount equal to the 1994-95 foundation allowance of the district in which the district beginning operations after 1994-95 is located or \$5,500.00. The amount of the payment to be made under section 22b for these qualifying districts shall be as calculated under section 22a, with the balance of the payment under section 22b being subject to the proration otherwise provided under this subsection and subsection (3). If proration is necessary, state payments under each of the other sections of article I from all state funding sources, and state appropriations to community colleges and public universities under articles II and III from the state school aid fund, shall be prorated in the manner prescribed in subsection (3) as necessary to reflect the amount available for expenditure from the state school aid fund for the affected fiscal year. However, if the department of treasury determines that proration will be required under this subsection, or if the department of treasury determines that further proration is required under this subsection after an initial proration has already been made for a fiscal year, the department of treasury shall notify the state budget director, and the state budget director shall notify the legislature at least 30 calendar days or 6 legislative session days, whichever is more, before the department reduces any payments under this act because of the proration. During the 30-calendar-day or 6-legislative-session-day period after that notification by the state budget director, the department shall not reduce any payments under this act because of proration under this subsection. The legislature may prevent proration from occurring by, within the 30-calendar-day or 6-legislative-session-day period after that notification by the state budget director, enacting legislation appropriating additional funds from the general fund, countercyclical budget and economic stabilization fund, state school aid fund balance, or another source to fund the amount of the projected shortfall.

(3) If proration is necessary under subsection (2), the department shall calculate the proration in district and intermediate district payments under article I that is required under subsection (2), and the department of treasury shall calculate the proration in community college and public university payments under articles II and III that is required under subsection (2), as follows:

(a) The department and the department of treasury shall calculate the percentage of total state school aid fund money that is appropriated and allocated under this act for the affected fiscal year for each of the following:

(i) Districts.

(ii) Intermediate districts.

(iii) Entities receiving funding from the state school aid fund under article I other than districts or intermediate districts.

(iv) Community colleges and public universities that receive funding from the state school aid fund.

(b) The department shall recover a percentage of the proration amount required under subsection (2) that is equal to the percentage calculated under subdivision (a)(i) for districts by reducing payments to districts. This reduction shall be made by calculating an equal dollar amount per pupil as necessary to recover this percentage of the proration amount and reducing each district's total state school aid from state sources, other than payments under sections 11f, 11g, 11j, 22a, 26a, 26b, 31d, 31f, 51a(2), 51a(12), 51c, 53a, and 152a, by that amount.

(c) The department shall recover a percentage of the proration amount required under subsection (2) that is equal to the percentage calculated under subdivision (a)(ii) for intermediate districts by reducing payments to intermediate districts. This reduction shall be made by reducing the payments to each intermediate district, other than payments under sections 11f, 11g, 26a, 26b, 51a(2), 51a(12), 53a, 56, and 152a, on an equal percentage basis.

(d) The department shall recover a percentage of the proration amount required under subsection (2) that is equal to the percentage calculated under subdivision (a)(iii) for entities receiving funding from the state school aid fund under article I other than districts and intermediate districts by reducing payments to these entities. This reduction shall be made by reducing the payments to each of these entities, other than payments under sections 11j, 26a, and 26b, on an equal percentage basis.

(e) The department of treasury shall recover a percentage of the proration amount required under subsection (2) that is equal to the percentage calculated under subdivision (a)(iv) for community colleges and public universities that receive funding from the state school aid fund by reducing that portion of the payments under articles II and III to these community colleges and public universities that is from the state school aid fund on an equal percentage basis.
